

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Construction	Barricades	Barricade Safety 2: Deadly Detour	Driving around road construction and barricades is not only tricky: it can be dangerous to both drivers and road crews. Learn ways to get through the "Roadwork Maze" unscratched. Safety Shorts.	B 8	VHS	5 min
Construction	Barricades	Barricade Safety: The Forbidden Zone	Serious injuries can be avoided when barricades are properly observed. Tips are offered on barricade safety, off and on the job. Safety Shorts.	B 7	VHS	5 min
Construction	General Safety	Above All Keep Your Head	Emphasize the importance of protecting your head. NSC.	A 1	VHS	9 min
Construction	General Safety	Call Before You Dig	Great information for preparing a site. Get the specs first! Contact necessary Authorities.	C 2	VHS DVD	10 min
Construction	General Safety	Portable Generators	While Portable generators allow you to "take your power with you", safety dictates that you can't take that power for granted. Topics: accident prevention, awareness, safe operating procedures.	P10	VHS	5 min
Construction	General Safety	The Competent Person & Soil Testing	Ensure your employees know their responsibility and are prepared for inspection. Clear, simple explanation of soil classifications. Five easy field tests for determining soil types. Preparation for and handling of an OSHA inspection.	C27	VHS	27 min
Construction	General Safety	Traffic Control Through Work Zones	With emphasis on worker safety, this program shows how to safely set up traffic control for short-term jobs. Includes: basic flagging techniques, safe taper lengths, positioning of channeling devices, safe work practices.	T 8	VHS	21 min
Construction	Ladders, Poles	Climbing Poles and Ladders	Workers illustrate safe procedures for climbing poles and towers including checking environment and structures, and use of portable and fixed ladders.	C12	VHS	5 min
Construction	Ladders, Poles	Ladder Safety	Designed primarily for step ladders and straight ladders. This video explains safety requirements, belt buckle rule, 4:1 ratio of straight ladders, and how to reduce ladder injuries from using incorrect procedures and unsafe behavior.	L 3	VHS DVD	5 min
Construction	Ladders, Poles	Ladder Safety in Construction/General Use	Train employees on tall hazards, and encourage them to pick the right ladder for the job, use it safely and as intended.	L 4	VHS DVD	11 min
Construction	Ladders, Poles	Working On Ladders, Poles, and Scaffolds	Among the safety procedures outlined in this program are using the right equipment for the job; setting up properly; inspecting all equipment before use; climbing and descending properly; and knowing the weight capability of the equipment.	W11	VHS	14 min
Construction	Roofing	Roofing Safety	Gives comprehensive training for those working in this high risk environment. Covers aspects of safety in the roofing industry. Don Brown.	R23	VHS	15 min
Construction	Roofing	Roofing Safety: Hot Tar Roofing	Roofing has long been a hazardous occupation. This video details the risks, hazards and safety considerations for hot tar roofers.	R 9	VHS DVD	15 min
Construction	Scaffolds	Mobile Scaffolds	Mobile Scaffolds can be easily overturned because they're so light. Take steps to ensure stability when installing or using mobile scaffolds.	M10	VHS DVD	5 min
Construction	Scaffolds	Personal Fall Protection	Stunt men falling from scaffolds, buildings and lifts highlight this program aimed at showing workers the importance of fall protection. Covers equipment tie-off and use, body belts, harness and positioning systems. Coastal.	P27	VHS	18 min
Construction	Scaffolds	Rigging the Boardwalk (Part 1)	Scaffolds are dangerous. Guard rails, ladders and planking are reviewed.	R 8	VHS DVD	5 min
Construction	Scaffolds	Safe Rigging	Explains the procedures involved in rigging for a safe lift. Emphasizes paying attention to the rated capacity and the variables that can reduce the rated capacity. Also explains calculating load weight, using tables of rated capacities, accounting for the effects of the sling angle and more. Tel-A-Train.	R17	VHS	16 min
Construction	Scaffolds	Safety on the Boardwalk (Part 2)	Working with mobile scaffolds can expose you to all of the usual hazards of scaffolds, plus a few more! The special hazards are covered and tips are shown on how to minimize danger at the job site, while you comply with regulations for scaffolds.	S12	VHS	5 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Construction	Scaffolds	Scaffold Safety	Excellent training program for anyone working on or near scaffolding. Attention given to safety rules, operating procedures, and safe use of scaffolds. Meets scaffold training requirements.	S45	DVD	10 min
Construction	Scaffolds	Scaffolds: Part 1 General Requirements	Fatalities and serious injuries associated with scaffolds are common. Help reduce accidents by making sure supported scaffolds meet requirements for design and construction. <i>(also in Spanish - 018)</i>	S17	VHS DVD	5 min
Construction	Scaffolds	Scaffolds: Part 2 Safe Work Practices	Safe use of scaffolds can help reduce accidents. Before performing work on scaffolds, know the hazards and understand procedures to control or minimize those hazards. <i>(also in Spanish - 019)</i>	S18	VHS DVD	5 min
Construction	Scaffolds	Working Safely with Supported Scaffolding	This video trains workers in the correct way to erect, maintain and use scaffolds. Includes, creating a stable foundation, Platforms and Planking, Power Lines, Ramps and Walkways, Fall Protection and more. Safety Source.	S46	DVD	25 min
Construction	Trenching/Shoring	Trench Emergency	Video reviews the dos and don'ts of trench rescue and can save the lives of both the person in the trench and the would-be rescuer.	T 9	VHS	16 min
Construction	Trenching/Shoring	Trenching and Shoring Safety	Overview of excavating and trenching safety basics.	T12	VHS	14 min
Construction	Trenching/Shoring	Trenching and Shoring: The Hole Story	Every year, dozens of workers are killed in unsafe trenches. This video explains the risk, the need for shoring soils, and conditions that affect the stability of trenches, as well as offering alternatives to shoring.	T10	VHS	12 min
Construction	Trenching/Shoring	Trenching Cave-in Response	Knowing safe response methods for cave-ins can make the difference between life and death, especially for rescuers. Designed for both on-site and rescue personnel, this video examines the basic considerations involved in cave-in emergencies.	T13	VHS	24 min
CPR/First Aid	Health	An Ounce of Prevention	For outdoors first aid, covers animal and insect bites, frostbite, sunburn, heat exhaustion, swimming emergencies, allergic reaction to plants and more.	F32	VHS	14 min
CPR/First Aid	Health	Biological Hazards	How infection can occur and how workers can protect themselves from exposure. Discusses which employees are at greatest risk and the types of environments that contain biological hazards such as viruses, bacteria or fungi. Marcom.	B27	VHS	13 min
CPR/First Aid	Health	Bloodborne Pathogens	This one-of-a-kind video/DVD trains employees to respect the hazards of pathogens.	B29	DVD	5 min
CPR/First Aid	Health	Bloodborne Pathogens 2000	A comprehensive video that covers a broad range of information relating to blood borne pathogens and related issues. Exposure prevention techniques, HIV, HBV, HCV and more are covered in depth. <i>(also in Spanish - 029)</i>	B14	VHS DVD	18 min
CPR/First Aid	Health	Bloodborne Pathogens For Heavy Industry	Contains information of the standard, epidemiology and symptoms of blood borne diseases, modes blood borne diseases are transmitted, the exposure control plan, recognition, practices to prevention, HBV vaccination, emergency procedures, signs and labels, selection and use of personal protective equipment, and more. Marcom.	B24	VHS	15 min
CPR/First Aid	Health	Preventing Bloodborne Disease	Aimed at first responders, first aid providers, custodial personnel and other workers in industry whose job duties may put them at risk for blood borne disease. Covers how transmitted and how to apply Universal Precautions to prevent contamination and infection. Protective equipment is also discussed, as is safe clean-up procedures and proper disposal of potentially infectious materials. Tel-A-Train.	B22	VHS	16 min
CPR/First Aid	Health	Preventing Exposure to BBP's	This updated video will provide information about blood borne pathogens and diseases that relate to them. Topics include modes of transmission, universal precautions, use of personal protection, biohazard containers/labels and the company exposure control plan.	B31	DVD	10 min
CPR/First Aid	Health	The Big Chill	Hypothermia occurs when the temperature of the body's inner core has been lowered sufficiently to cause illness. Hypothermia can strike quickly and silently. If left untreated, hypothermia can eventually lead to death.	B12	VHS	5 min
CPR/First Aid	Health	Worker Awareness Bloodborne Pathogens	Aimed at workers in manufacturing, pharmaceutical, utilities, general industry and petroleum refineries, this program will aid training of workers who are affected by this standard. Covers: the scope of the standard, what BBPs are, safe work practices, PPE, engineering controls, housekeeping, safe handling of materials, proper handling and cleanup and disposal methods. Summit.	B23	VHS	14 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
CPR/First Aid	Injury	First Aid for Accidents	Because a seriously injured person may die before help can arrive, it's up to every worker to know first aid. In the program, several vignettes illustrate some of the most serious accidents that can occur in the workplace, etc.	F11	VHS DVD	17 min
CPR/First Aid	Injury	First Aid for Supervisors	When accidents occur supervisors must be prepared to act. Review their responsibilities: Emergencies vs. minor first aid treatment, elements of a good first aid program and treatment of common injuries.	F12	VHS DVD	17 min
CPR/First Aid	Injury	Head Injuries	Consider all head injuries seriously. Know first aid and when to seek medical care. Head injuries appear to be a minor bumps, bleeding of the scalp, a fractured skull, or a bruise to the brain, etc.	H17	VHS	5 min
CPR/First Aid	Injury	Safety Showers Eye Washes	Reviews situations where safety showers and eyewashes should be used and how to use them correctly. Covers types of shower and eyewash techniques, helping a victim use showers and eyewashes, first aid, maintenance and testing of equipment. Marcom.	S58	VHS	12 min
CPR/First Aid	Injury	Stop The Bleeding	With severe bleeding, quick and proper action is vital. The basic first aid procedures are demonstrated. Safety Shorts.	S48	VHS	5 min
CPR/First Aid	Stress/Wellness	Battling Fatigue	Fatigue on the job can mean trouble. The various types of fatigue and ways fatigue can be overcome are covered. <i>(also in Spanish - 002)</i>	B11	VHS DVD	5 min
CPR/First Aid	Stress/Wellness	Heat Illness	Symptoms and stages of heat illness reviewed and the best treatment for each symptom/stage offered. Suitable for all employees.	H29	VHS DVD	6 min
CPR/First Aid	Stress/Wellness	Heat Stress	In outdoor work, temperatures will rise and so will the risks. Cramps, exhaustion and stroke can all plague employees in hot weather conditions. Cool off these dangers now with tips on illness prevention and safety hazards. Coastal.	H53	VHS	16 min
CPR/First Aid	Stress/Wellness	Heat Stress	Discusses signs, body's reaction, & how to avoid heat stress. Also, the effects of alcohol, medications & food. The video addresses acclimation, dressing for, sun protection & first aid for heat.	H28	VHS DVD	12 min
CPR/First Aid	Stress/Wellness	Heat Stress (In the Work Environment)	Employees in this environment are frequently exposed to heat stress, which can not only slow production, but can also be a medical emergency. Identifies the signs, symptoms and prevention of this potential killer. Don Brown.	H48	VHS	11 min
CPR/First Aid	Stress/Wellness	Heat Stress Prevention	Shows the effects heat stress has on the body, and teaches workers how to reduce the probability of suffering such heat related disorders as heat cramps, heat exhaustion and heat stroke. First aid measures are also covered. Summit. (Good video)	H46	VHS	11 min
CPR/First Aid	Stress/Wellness	Lifestyles for Wellness	This program teaches the concept of wellness, and motivates viewers to adopt healthy lifestyles. A number of people reveal how their wellness program contributes to their lives, improving their health, their productivity, and their general outlook in the process. This presentation will encourage widespread participation in a wellness program that includes fitness, nutrition, and stress management. Hosted by William Shatner.	L 7	VHS	17 min
CPR/First Aid	Stress/Wellness	Stress in the Workplace	Approximately three fourths of all Americans experience stress. The causes of stress and ways to deal with it are discussed. <i>(also in Spanish - 022)</i>	S33	VHS	5 min
CPR/First Aid	Stress/Wellness	Stress Management: A Practical Approach	Supervisors will be provided with information relating to stress and how the supervisor can reduce stress at work, eliminating the potential for stress related disorders and worker compensation disabilities due to stress.	S34	VHS	18 min
CPR/First Aid	Stress/Wellness	Stress Relief	If employees understand what stress is and why it happens, they can minimize its impact. This short program is targeted for employees in the workplace. It is designed to help people who are stressed to better cope with situations.	S35	VHS	7 min
CPR/First Aid	Stress/Wellness	Stress Relief: The Heimlich Method	Dr. Heimlich explains what stress is, how it works, gives simple strategies for cooling off stressful situations; changing habits that invite stress to rule our lives; and gives the viewer tools to take responsibility for their emotional health.	S36	VHS	18 min
CPR/First Aid	Stress/Wellness	Sun Safety: A Growing Health Concern	This video provides information on the health effects from overexposure to the sun, types of skin cancers, the ultraviolet (UV) index, individual characteristics that are risk factors, and preventative sun safety practices.	S51	VHS DVD	12 min
CPR/First Aid	Stress/Wellness	Working Safely in Hot Environments	This DVD addresses heat illness and heat stress.	H54	DVD	10 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Driver	Crime Prevention	Carjacking It Can happen to Anyone	Viewers are given tips on how not to be a victim and what to do if carjacking occurs. Important to be alert at all times, approaching your parked car, moving carjacking, the value of car phones in cases of emergency and stresses that you should never resist. (Dated as far as dress, hair and 'car phones', but good info)	D20	VHS	9 min
Driver	Crime Prevention	Reduce Your Risk of Being a Victim of a Crime While Driving	This National Safety Council presentation demonstrates personal safety techniques to guard against: mugging, car theft, carjacking & other vehicle related crimes.	R 2	VHS DVD	15 min
Driver	Crime Prevention	Road Rage & Aggressive Driving	Road Rage is deliberate, violent behavior by a driver in response to a real or imagined traffic grievance. This timely program looks at road rage and aggressive driving from the driver's perspective.	R12	VHS DVD	20 min
Driver	Crime Prevention	Women's Safety Awareness: Safety Made Simple	Designed to give women a tactical edge in staying safe from crime and victimization. Learn ways to stay safe: at home, when driving, while shopping and if confronted by a criminal attacker or abductor.	W23	VHS	25 min
Driver	General Safety	Ask Any Dummy Seat Belts Make Sense!	Vince & Larry, the US DOT's famous crash dummies star in their own original video that is sure to motivate viewers to wear seat belts. Combines humor and vivid comparisons between belted and unbelted passengers, especially infants and children who are unbelted or sitting in. Aims.	D19	VHS	18 min
Driver	General Safety	City Driving	You face many distractions and hazards driving in the city. Sometimes, the distractions become the hazards. Driving in the city requires your full attention.	C10	VHS DVD	5 min
Driver	General Safety	Coaching the Beginning Driver	2 videos (A & B) Driving Techniques - a defensive driving video for the new driver. Coaching Techniques - a "Parent" video to help you become more effective in a "one-on-one" driving situation with your teenager. NSC.	C25	VHS	59 min
Driver	General Safety	Disabled Vehicles, Accident Procedures & Truck Fires	What to do with disabled vehicles, reporting accidents, accident scene procedures, emergencies, vehicle fires and handling hazardous waste. (dated, pay phones, but still some helpful information)	D22	VHS	15 min
Driver	General Safety	Driven Driver	For outside sales and service personnel, this program discusses the importance of safe driving, the reasons for being familiar with the vehicle, safe driving skills, the effects of alcohol and drugs and the benefits of alcohol and drugs and the benefits of always wearing safety belts. Summit.	D15	VHS	15 min
Driver	General Safety	Driver Attitudes	The importance of patience and common courtesy toward other drivers is discussed. Reminds drivers the way they drive affects the image of the company. Particular emphasis is placed on alcohol and driving - impairment of vision and judgment, long-term effects on the families of victims and how the law and court decisions are increasing penalties for DWL. (May be a bit dated, but good info). Summit.	D14	VHS	11 min
Driver	General Safety	Driving & Drugs, Driving Under the Influence	Demonstrates dangers of combining alcohol & drugs with driving. Realistic scenarios show operation of a vehicle is greatly impaired when drivers are under the influence of alcohol, marijuana, cocaine and other drugs. Features aspects of Designated Driver Program & law enforcement measures used to deter DUI.	D13	VHS	18 min
Driver	General Safety	DUI: The Price is Too High	Dramatic vignettes make it clear that there are life-altering legal consequences of DUI. This video follows the stories of 3 first time offenders through arrest, losing licenses, court and fines, attendance in an alcohol and drug awareness program in lieu of jail, canceled auto insurance or increased insurance premiums, and in the case of at least one of the three, termination of employment.	D10	VHS	23 min
Driver	General Safety	Hapless Hal's Roadside Safety	An unexpected mechanical problem can be a headache and a real danger. A step-by-step approach in dealing with automobile trouble and preventative maintenance are shown.	H 7	VHS	5 min
Driver	General Safety	Intersections	Intersections are the most dangerous driving situations in the city. Learn some easy to apply techniques to significantly reduce the likelihood that you will be involved in an intersection accident.	I 5	VHS	5 min
Driver	General Safety	Modern Technology and Driving	This video covers safety issues involving air bags, automatic safety seat belts, four-wheel drive, cruise control, car phones, and high tech audio systems.	M11	VHS	15 min
Driver	General Safety	National Driving Test 2	This program helps drivers discover how skilled and knowledgeable they really are when driving and if they are prepared to handle traffic situations and possible hazards. The program presents 25 questions that cover an extensive variety of situations.	N 2	VHS DVD	13 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Driver	General Safety	Red Asphalt V	Points out the #1 cause of death for teens are car crashes. More than a dozen graphic scenes of dead motorists consisting of mangled faces and bodies. It is probably the most graphic of all the Red Asphalt videos and promised to be the most effective.	D31	VHS DVD	16 min
Driver	General Safety	Safety Belts & You	Here is a film that explains the importance of using safety belts every time you get into a vehicle. It also demonstrates what can happen to you if you do not use safety belts.	S 7	VHS DVD	15 min
Driver	General Safety	Seat Belts are for Kids, Too	Geared for kids... Starring the Schiefelly Puppets. Shows how to wear seat belt correctly, why the shoulder and lap belts are important and why babies and smaller children need to use car seats. Aims. (Cute)	D27	VHS	10 min
Driver	General Safety	Seatbelts and Birthdays	Ever wonder why you should wear a seatbelt whenever you're on a car? Here's your answer.	S19	VHS	10 min
Driver	General Safety	The Moment of Impact	Automobile accidents cause nearly half of all accidental deaths in the US. This video shows you what to do after an accident to make the best of a bad situation.	M12	VHS	5 min
Driver	General Safety	Van & Truck Driving Safety on the Job	Develop a safe, professional attitude. A veteran driver explains that being a real pro is staying alert, wary, patient and considerate. Teaches all the fundamentals of safe, professional driving procedures. Reminds drivers that accidents are often caused by poor judgment and lack of attitude. (Dated, but good info)	D17	VHS	23min
Driver	General Safety	Watch Your Load	Loose items inside a vehicle can be deadly projectiles in an accident or sudden stop. Hapless Hal illustrates the dangers of unrestrained cargo.	W 2	VHS DVD	5 min
Driver	General Safety	Who's Driving?	Discusses the standard on Occupant Protection in motor vehicles and will compliment any driver safety program. Covers paying attention, being alert when driving, pre-trip preparation and wearing safety belts. Coastal. (Dated, but somewhat entertaining with useful information)	D24	VHS	15 min
Driver	Other Vehicles	Driving Through the Danger Zone	Mainly for large truck and semis. Good information.	D26	VHS	25 min
Driver	Other Vehicles	Dump Truck Safety	Reminds employees to follow proper procedures and correct bad habits: types and sizes of dump trucks, vehicle inspections to detect problems; loading, unloading and dumping safely; vehicle maneuvering & terrain; driver attitude and fitness. Don Brown.	D11	VHS DVD	15 min
Driver	Other Vehicles	Landscape Equipment Safety - Vol. 2: Riding Mowers	A terrific video for your infield landscape personnel. It demonstrates safe operating techniques as well as maintenance guidelines.	R 7	VHS	20 min
Driver	Other Vehicles	Motorcycle Safety	There are more than 400,000 motorcycle accidents each year. Frequent causes of accidents are discussed.	M15	DVD	5 min
Driver	Other Vehicles	Orientation to Agriculture Vehicle Safety	This video covers many of the safety issues that apply to driving an agricultural vehicle, such as defensive driving, driving under the influence, safety belts, vehicle speed, driving in adverse weather, vehicle inspections and vehicle maintenance.	O 6	VHS	52 min
Driver	Other Vehicles	Professional Driver (Relating to Hazardous Materials)	Training requirements for drivers who transport hazardous materials including per-op inspections, basic operating skills, and safe driving techniques. (Dated, but has some useful information)	D25	VHS	15 min
Driver	Other Vehicles	Rear Loader Operations and Safety	Truck operations, helpers, loading, improper sites, container blockages, landfill safety, dumping and residential safety are shown. Don Brown.	R21	VHS	11 min
Driver	Other Vehicles	Side Loader Operations & Safety (Garbage Trucks)	Remind your employees of the hazards and encourage a good safety attitude. This video highlights Pre-trip inspection checklists; defensive driving; personal injury prevention; avoiding slips and falls; safe lifting; gloves; etc.	S22	VHS	11 min
Driver	Other Vehicles	The First Five Minute Inspection	In just five minutes, this video shows you the steps to take to inspect your rig before you hit the road, or something on it.	F14	DVD	5 min
Driver	Other Vehicles	The Safe Route	4-Wheel Drive Safety.	S43	VHS	16 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Driver	Technique	Controlling Auto Skids	Information on controlling auto skids. (Older vehicles but still useful information)	D23	VHS	10 mins
Driver	Techniques	Backing Up	Safely backing up trucks, trailers and other vehicles can be a challenging task requiring more than a little skill. Every year there are many accidents resulting in injury and damage due to carelessness when backing vehicles up.	B 6	VHS DVD	5 min
Driver	Techniques	Habit Defense: Covering the Break	This defense driving program stresses the habit of safety. Centers on increasing awareness of possible hazards and being prepared to act quickly, leading to reduced stopping distance. (Pretty smart kid!)	D16	VHS	20 min
Driver	Techniques	On the Road Safety	Reviews: 4 step accident prevention formula; stopping distances; reaction, braking and stopping times for 20 mph vs. 40 mph; complete inspection check list; cautious driving through intersections, R/R crossings, lane changes, etc. (Focus - Big Trucks & includes waste trucks)	O 4	VHS	12 min
Driver	Techniques	Route Safety Analysis	Covers route hazards, container hazards, tight spaces, reporting hazards and damage, overloaded containers, unauthorized hazardous waste, dumping the load and inspecting the vehicle at the landfill.	D30	VHS	30 min
Driver	Techniques	Safe Driving on Freeways	This video explains many basics of the law as a reminder of info. Freeway drivers should already know. High Impact for anyone operating an auto, light truck, or other on-the-road vehicle.	S 2	VHS DVD	17 min
Driver	Techniques	Safe Driving Tactics + Discussion Guide	This program advises viewers how to react to and avoid dangerous situations involving hydroplaning, rollovers, head-on collisions, highway hypnosis and wind waves causes by passing semis. Discusses basic driving tactics and more.	S 1	VHS	26 min
Driver	Techniques	Safety On The Job: Van and Truck Driving Length	A veteran tow truck operator explains the importance of being alert, wary, patient and considerate. He cautions on the results of poor judgment, lack of discipline, or not knowing the equipment. Teaches fundamentals that should become habits.	S13	VHS DVD	23 min
Driver	Techniques	Space Invaders	Here is a video designed for the professional driver. It describes space-time relationships and conditions affecting those relationships. Space cushioning is the focus of this film, which also deals with tailgaters.	S29	VHS	9 min
Driver	Techniques	Speeding (Cars)	Speeding is a national epidemic. It's deadly. It's everywhere. The viewer is motivated to make a life-saving decision - not to speed.	S30	VHS	5 min
Driver	Techniques	Speeding (Trucks)	Problems are multiplied when you mix trucks and speeding. The possible harm, damage and destruction are all bigger than life. It is the driver's responsibility to increase his awareness of potential hazards and reduce his speed.	S31	VHS	5 min
Driver	Techniques	Truck Driving - Controlling Skids	Gives drivers info they need to make the right decisions quickly to avoid accidents. Covers causes of skids, the importance of quick action, control of the vehicle, jack-knifing and more.	D18	VHS	17 min
Driver	Techniques	Vehicle Backing Accident Prevention & Child Safety	Backing accidents can be prevented! Through awareness & working without taking chances, your employees can have accident-free routes. (Note: Video is for garbage-type trucks)	V 1	VHS	10 min
Driver	Techniques	Vehicle Safety - Driving On the Road	A video that emphasizes the need for wearing seat belts, driving defensively, rules of the road and other safety awareness when operating a motor vehicle.	V 2	VHS	17 min
Driver	Weather Hazards	Driving In Bad Weather	This great video presents common weather-related driving problems from the point of view of the driver. It discusses and demonstrates many different bad weather driving situations and what to do if one is encountered while driving. Topics such as icy roads, how to handle your vehicle in thunderstorms and standing water, and driving in thick fog.	D32	DVD	17 min
Driver	Weather Hazards	Low Visibility and Driving	Learn about fog, snow, rain and bright sun, night driving, oversized vehicles, obstacles within the vehicle, blinding spray from passing vehicles, effects of shadows, safe stopping areas and more in this eye-opening video.	L13	VHS DVD	15 min
Driver	Weather Hazards	Surviving Winter Driving	This is a program that discusses loading techniques, vehicle conditions, slow starts, curves, turns, braking, jack knifing, skids, emergency equipment and more.	S39	VHS	10 min
Driver	Weather Hazards	Taming The Winter Road + Guide	This video covers winter driving hazards the professional truck driver encounters. It presents useful information you can use to prevent collisions and other situations that can cause you costly slowdowns. It also prepares you for how to deal with dangerous winter driving conditions once they occur.	T 3	VHS	11 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Driver	Weather Hazards	Winter Driving	How do you avoid slipping and sliding while driving on snow and ice? What do you do if you lose control of your car, or if you get stuck in a snow drift? Tips are given for dealing with winter driving hazards.	W 8	VHS DVD	5 min
Driver	Weather Hazards	Winter Driving Update	There are many safety precautions, preventive measures, and tactics to learn before driving in winter conditions. Good driving habits such as paying attention, keeping two hands on the wheel, and maintaining a generous following distance are encouraged. Methods for driving safely in snow and ice are demonstrated. The importance of being prepared in the event of a breakdown is emphasized. Aims.	W26	VHS	15 min
Ergonomics	Back Safety	Back In Shape	Understanding how back/spine functions; Role of ligaments, muscles, vertebrae, disks and joints; Natural curve of the spine; Sitting, standing, sleeping - proper posture. Long Island Productions (TTN).	B19	VHS	17 min
Ergonomics	Back Safety	Back In Step: The Road to Recovery From Back Pain	The most comprehensive back pain/injury recovery available. Designed to be viewed by people with full blown back injury or those simply experiencing back pain or discomfort. This program teaches people their role in the recovery process and how to perform daily activities in a way that promotes the recovery of their backs.	B20	DVD	
Ergonomics	Back Safety	Back Injury Prevention	The variety of lifting tasks employees face require specific techniques. It is definitely a "must see" program for employees before an accident occurs. Good for retraining employees who experienced a back injury.	B 1	VHS DVD	8 min
Ergonomics	Back Safety	Back Injury Prevention through Ergonomics	This program explains why back injuries are frequent. It will also discuss the structure and function of the human back. Employee's posture, object weight and task design are also detailed.	B 2	VHS DVD	15 min
Ergonomics	Back Safety	Back Injury Prevention through Exercise	This program stresses a personal responsibility to warm up the back and other muscles. Simple exercises are described and demonstrated. These exercises don't take a lot of time and are proven to reduce back injuries.	B 3	VHS	8 min
Ergonomics	Back Safety	Back to Basics	Four out of five Americans will have back problems. This Safety Short video shows what can cause back injuries and how you can avoid them.	B30	VHS	8 min
Ergonomics	Back Safety	How to Control Back Pain	1/3 of all Americans suffer from back pain at some time of their life. Educate your employees to keep their backs healthy.	H22	VHS	9 min
Ergonomics	Back Safety	How To Control Back Pain	The back pain cycle; Prevent or lesson back pain through visualization, muscle relaxation, exercise and good posture.	H30	VHS	17 min
Ergonomics	Back Safety	How to Prevent Back Injuries	Safe lifting guidelines, Preventing back injuries at work, How your diet affects back safety and exercises that can strengthen your back.	H24	VHS DVD	20 min
Ergonomics	Back Safety	Preventing Back Injuries	Video shows the mechanics of the back, back care exercises and proper techniques of how to use your back.	P17	VHS	10 min
Ergonomics	Back Safety	Preventing Back Injuries Through Exercise	Gives basic exercises that warm up the back before beginning work and how these simple exercises will prevent back injuries and improve the health of the employees who participate. Don Brown. (Construction Related)	B25	VHS	10 min
Ergonomics	Back Safety	Safe Lifting and Carry Techniques	Tips are offered on how to avoid back problems while lifting, pulling, pushing, bending or twisting when you are moving heavy or awkward objects.	S 4	VHS	5 min
Ergonomics	Back Safety	Understanding the Working Back	Video shows how to lift things and not hurting your back.	U 2	VHS DVD	15 min
Ergonomics	Computers	Working Safely with Video Display Terminals	The U.S.Dept. of Labor reports that repetitive strain injuries now account for more than 50% of all workplace injuries. VDT operators are among the most vulnerable. This video shows how to protect against repetitive strain injuries in the office.	W12	VHS	12 min
Ergonomics	Computers	Workstation Ergonomics Part 1: Eyestrain	Computer users are highly susceptible to eyestrain. This parody of futuristic space travelers offers tips on how to reduce eyestrain by modifying your workstation.	W19	VHS	5 min
Ergonomics	Computers	Workstation Ergonomics Part 2: CTDs	Computer users are susceptible to Cumulative Trauma Disorders caused by repetitive motion at a keyboard. To help reduce injuries, follow tips for workstation design and safe work practices.	W20	VHS	5 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Ergonomics	General Safety	Basic Ergonomics	Ergonomics, the science of matching man to machine, can affect the working conditions of each employee. This video humorously introduces this important concept. <i>(also in Spanish - 001)</i>	B10	VHS	5 min
Ergonomics	General Safety	Desktop Ergonomics	Every job makes a different set of demands on the body. Today the issue of how this impacts employees and what can be done to reduce or eliminate adverse effects is receiving a lot of attention. While there is much debate about many aspects of ergonomics, everyone agrees on one thing... that is by using proper ergonomic techniques, employees can be safer and more productive as well as feel better at the end of the day.	E32	VHS	12 min
Ergonomics	General Safety	Ergonomics Safety	Fitting the work to the worker. Worksite analysis, Hazard prevention, Implementation of medical management, Training and education.	E20	VHS DVD	5 min
Ergonomics	General Safety	Home Ergonomics	The ergonomic lessons employees learn on the job are too often forgotten on the home front. By applying similar principles, we can keep ergonomically safe and efficient, etc. Safety Shorts.	H21	VHS	5 min
Ergonomics	General Safety	Industrial Ergonomics	It's essential that industrial work areas, equipment and processes are ergonomically correct. This program defines ergonomics and outlines ways that ergonomic hazards can be engineered out of the work process. Emphasis is placed on recognition, evaluation and control of hazards. Potential ergonomic hazards associated with material handling are also discussed. Safety Source.	I 4	VHS	16 min
Ergonomics	General Safety	Preventing Thermal Illness	VDT Ergonomic Programs that Work.	P19	VHS	12 min
Ergonomics	Lifting	Lifting Safety in the Distribution Terminal	The varieties of lifting tasks in the distribution industry require specific techniques to be accomplished safely. This program provides an in-depth look at proper lifting techniques under difficult conditions and hazards resulting from incorrect methods.	L 9	VHS	20 min
Ergonomics	Lifting	Manual Lifting and Handling	Supervisor Development Film; presenting the basics of proper materials handling.	M 6	VHS	10 min
Ergonomics	Lifting	Manual Load Handling in the Warehouse	The improper lifting, carrying or handling of materials causes 2/3 of all warehouse injuries. This program presents the do's and don'ts of warehouse procedures and shows workers how to handle products safely and efficiently. It also describes how to correctly inspect a load, checking for weight, nails, sharp edges, a weak bottom, or oily spots that could make the load slippery. Also stresses the dangers of working under the influence of alcohol and drugs.	M 7	VHS	12 min
Ergonomics	Lifting	System Lifting Techniques	This video gives us a visual look of spine and muscle function, the cause of back pain, and back injury prevention. Safety Source.	S41	VHS	10 min
Ergonomics	Lifting	Workers Enemy Number One	Forty percent of all work related injuries involve the back. This video explains how to avoid back injury through common sense practice. <i>(also in Spanish - 028)</i>	W18	VHS DVD	5 min
Ergonomics	Strains/Injuries	Carpal Tunnel Syndrome	Video is designed to heighten awareness of CTS and to facilitate the implementation of your ergonomics program. By understanding how carpal tunnel works, employees are more suited to determining their own solutions to preventing harmful and costly CTS injuries.	C26	VHS DVD	13 min
Ergonomics	Strains/Injuries	Carpal Tunnel Syndrome	Describes carpal tunnel syndrome, how to prevent CTS and what employees can do to reduce the effects of CTS. Don Brown.	C 5	VHS	14 min
Ergonomics	Strains/Injuries	Carpal Tunnel Syndrome	Help your employees avoid pain and lost work time due to this preventable nerve condition. This program discusses: symptoms, pain, tingling, poor gripping, hand anatomy, protection of median nerve, and syndrome causes.	C 4	VHS DVD	14 min
Ergonomics	Strains/Injuries	Hand and Wrist Injuries	Hands are especially prone to injuries. Teach employees about hand accidents and how to avoid them. Includes hand and wrist structure, injuries, fractures, sprains, lacerations, and nerve compression and treatments.	H 1	VHS	10 min
Ergonomics	Strains/Injuries	Repetitive Strain Injuries	Repetitive strain injuries are an ever increasing occupational hazard. Learn ways to prevent these Injuries. <i>(also in Spanish - 016)</i>	R 6	VHS	7 min
Fire/Disaster	Disaster Preparedness	Building Evacuation	Covers the principles of evacuations in buildings and the importance of everyone knowing their role in case of emergency. Covers runners and floor wardens, warning systems, communications, assembly areas, handicapped people, order of evacuation, stairways and more. Safety Care.	E25	VHS	12 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Fire/Disaster	Disaster Preparedness	Earthquake Awareness & Risk Reduction	This video is produced by Utah State U. and contains vital statistics on earthquake awareness and ways to reduce the risk of injury and death in the event of an earthquake.	E 2	VHS	25 min
Fire/Disaster	Disaster Preparedness	Earthquake Safety	What causes an earthquake? A historical look at California's earthquakes and what to do in the event of an earthquake today. (Primarily from a southern California view)	E 3	VHS	12 min
Fire/Disaster	Disaster Preparedness	Earthquake: Some Were Prepared	People who experienced the 1989 Loma Prieta earthquake discuss how they prepared for and lived through it. Seismologists, health care professionals, emergency service personnel, and area residents outline ways to prepare for and respond to a quake.	E 1	VHS	30 min
Fire/Disaster	Disaster Preparedness	Egress/Exit Safety	What a way to die. What if your building has emergency exits, but you can't escape disaster because you can't exit safely? Obstructions, exit doors, and how to exit safely are covered. <i>(also in Spanish - 005)</i>	E 7	VHS DVD	5 min
Fire/Disaster	Disaster Preparedness	Emergency Evacuation	Explains the essentials of evacuations, precautions to take, and what to do in case of an emergency. Although designed for large buildings, it can be adapted to any size facility.	E14	VHS DVD	14 min
Fire/Disaster	Disaster Preparedness	Emergency Evacuation Procedures	Covers the importance of evacuation plans & training procedures.	E15	VHS	10 min
Fire/Disaster	Disaster Preparedness	Emergency Preparedness - A Supervisor's Role	This comprehensive video addresses EVERYTHING concerning emergency preparedness & natural disasters such as floods, earthquakes, hurricanes and storms. Also covers accidental disasters: fires, workplace violence, terrorism, employee sabotage & arson. The time to prepare for an emergency is before it happens and this is the best program to train your supervisors to properly prepare and effectively respond.	E34	DVD	33 min
Fire/Disaster	Disaster Preparedness	Emergency Preparedness - An Employee's Responsibility	This Program is comprehensive and will educate your workforce about how they can prepare for disasters such as floods, fires and hurricanes and how they can help prevent the impact of workplace violence, terrorism and arson. This program is a great way to raise awareness in your company and ensure that your employee's know what to do when disaster strikes. Proper preparedness can help minimize the loss of life and property should a disaster occur.	E33	DVD	25 min
Fire/Disaster	Disaster Preparedness	Emergency Preparedness At Home	Video is designed to explain how to prepare for emergencies in the home. What actions to take before, during & after an earthquake, tornado, hurricanes or other emergencies.	E35	DVD	9 min
Fire/Disaster	Disaster Preparedness	Fire Escape: Getting out Alive	The best way to survive a fire is to have a fire escape plan. Plan ahead, so you can get out alive.	F 7	VHS DVD	5 min
Fire/Disaster	Disaster Preparedness	Fire In America	Many of this country's most devastating and destructive fires are examined here, with background on each fire, their ignition, spread and loss of life and property. Also serves as a strong argument for improved protection systems regulations and prevention education.	F40	VHS	30 min
Fire/Disaster	Disaster Preparedness	Fire Prevention in the Office	Year after year office fires cause millions of dollars in damage and result in hundreds of employee injuries. Teach your employees the steps to help prevent office fires and what to do in case of a fire emergency.	F42	DVD	14 min
Fire/Disaster	Disaster Preparedness	Hurricanes: Tornadoes & Floods	You can reduce the damage to property and protect the lives of your family from the devastating effects of natural disasters such as hurricanes, tornadoes and flood. Topics include: being prepared; emergency kits; watches and warnings; evacuation tips; emergency procedures.	H26	VHS	17 min
Fire/Disaster	Disaster Preparedness	I Plan to Live: Emergency Planning	The friendly but accident-prone planet of Infernia is about to destroy itself. They have no idea what to do in an emergency. Observe an Emergency Action plan in action. Safety Shorts.	I 1	VHS	5 min
Fire/Disaster	Disaster Preparedness	Mail Bombs + Contingency Planning Guide	To protect the public and many postal employees who handle the mail daily, mail bombs are afforded one of the Postal Inspection Service's highest priorities, receiving immediate task force attention. The first part of the video covers background & introduction, the second part covers characteristics & security.	M18	VHS	30 min
Fire/Disaster	Disaster Preparedness	Planning for Disaster: Earthquakes	How to strengthen your facility's readiness by preparing in advance; how to prepare your employees while minimizing losses. Focus: preparedness, response, recovery.	P 5	VHS DVD	8 min
Fire/Disaster	Disaster Preparedness	Planning for Disaster: Floods	This video will help you protect your employees and your assets, and will help you minimize losses in the case of devastating floods. Includes: securing your facility; assembly and evacuation; recovering after the flood.	P 6	VHS	8 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Fire/Disaster	Disaster Preparedness	Planning for Disaster: Hurricanes	This video will help you protect your employees and your assets, and will help you minimize losses in the case of hurricanes. Includes: securing your facility; assembly and evacuation; recovering after the storm.	P 7	VHS	8 min
Fire/Disaster	Disaster Preparedness	Planning for Disasters: Tornadoes	This video will help you protect your employees and your assets, and will help you minimize losses in the case of tornadoes. Includes: securing your facility; assembly and evacuation; recovering after the twister.	P 8	VHS	10 min
Fire/Disaster	Disaster Preparedness	Severe Weather Alert - Are You Prepared?	Talks about different types of weather and what you can do to be prepared.	W27	DVD	12 min
Fire/Disaster	Disaster Preparedness	Ticking Bombs Preparedness	Presents an inter-disciplinary Crisis Management model for handling a serious violent incident. Include legal aspects of preparedness, defining an incident that calls for crisis management, organizing for post-incident handling, understanding victim reaction, providing counseling, dealing with the press, post-incident legal issues and how to return to full productivity. CorVision Media.	T16	VHS	18 min
Fire/Disaster	Disaster Preparedness	What to do About Workplace Emergencies	Packed with vital information to ensure safety in a workplace emergency. Focuses on establishing an Emergency Action Plan and written policies and procedures. Earthquakes, fires, tornadoes, hurricanes, bomb threats, chemical spills, biological threats, workplace violence, Blood borne pathogens, hazardous chemicals, MSDS and labeling, extinguishers, emergency drills, planning testing and reporting.	W22	VHS	17 min
Fire/Disaster	Electrical	Electrical Safety/Fire Protection/Fire Extinguishers	Designed for staff personnel, custodians, facility maintenance and fleet maintenance personnel. A complete training review of fire prevention and electrical safety. Don Brown.	E31	VHS	15 min
Fire/Disaster	Extinguishers	Fire Extinguisher Training (Using Fire Extinguishers)	Every year fires cause hundreds of millions of dollars in damage and results in hundreds of employee injuries, even death if the proper precautions aren't taken. This informative DVD teaches employees the proper way to use a fire extinguisher.	F44	DVD	20 min
Fire/Disaster	Extinguishers	Fire Extinguisher Training and Use	Covers: Checklist for monthly extinguisher inspections and guidelines; extinguisher classification, Use: PASS method, tips and safety; Fire prevention: housekeeping, flammable storage, electrical inspections, and fire hazards.	F 8	VHS DVD	14 min
Fire/Disaster	Extinguishers	Fire Extinguisher: Safety on the Job	Teaches the RACE Procedure - Rescue, Alarm, Contain, and Extinguish. The 4 types of extinguishers are shown, the fires each works on and how to safely operate and maintain them. Emphasizes that the best way to stop a fire is to prevent it. Aims.	F34	VHS	23 min
Fire/Disaster	Extinguishers	Fire Extinguishers	Educates employees on the classifications of fire extinguishers, the type of fire for which they are suited, demonstrates proper use and federal requirements for storage and maintenance of extinguishers. Summit Training Source.	F41	DVD	5 min
Fire/Disaster	Extinguishers	Know Your ABC's: Fire Extinguishers	An industrial or construction site can house dangerous fire hazards. Different types of fire extinguishers and their appropriate uses are discussed. <i>(also in Spanish - 012)</i>	K 2	VHS	5 min
Fire/Disaster	Injury	If You Could See Me Now	Burn victims - still carrying scars from their own particular mistakes - recount incidents that led to their disfigurement. A strong motivator for both fire safety and fire prevention.	F38	VHS	20 min
Hazardous Materials	Asbestos	Asbestos Safety	For asbestos safety awareness. The Idea Bank.	A 7	VHS DVD	5 min
Hazardous Materials	Asbestos	The Asbestos Threat	Designed for general safety awareness. It explains what asbestos is, where it's found and what everyone can do to reduce their exposure to this cancer causing substance. It includes work settings, schools, home and other structures.	A 6	VHS	8 min
Hazardous Materials	Chemicals	Bonding & Grounding of Flammable Liquid Transfers	Explains the need for properly grounding during the transfer of flammables, including a basic discussion of static electricity and the hazard it creates. Discusses bonding and grounding to eliminate electric potential and pre-transfer steps.	B15	VHS	8 min
Hazardous Materials	Chemicals	Chemical and Biological Threat	Video addresses the threat of terrorist attacks involving chemical or biological agents and how businesses and individuals can reduce potential risk. Safety Source.	C 7	VHS	20 min
Hazardous Materials	Chemicals	Chemical Safety	Basic chemical safety for those employees who use, handle, store and dispose of chemicals in the workplace. Meets general training requirements, aimed at those not in a heavy chem. environment, who use small amounts of chem. in their everyday work.	C 9	VHS	5 min
Hazardous Materials	Chemicals	Chemical Spills, Leaks & Clean-up Operations	Meets requirements for training employees in basic spill and clean-up procedures. Emphasis is on individual safety, proper equipment and general safety rules. Don Brown.	C30	VHS	11 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Chemicals	Flammables, Combustibles & Explosives	Reminds workers that these chemicals are a serious hazard on the job and must always be treated with respect. Gives examples of situations when working with chemicals followed by correct and safe practices. The Training Network.	F25	VHS	14 min
Hazardous Materials	Chemicals	Fueling a Machine	Refueling a machine can be highly dangerous. This video recreates a near-fatal accident as an example of what can happen when you take shortcuts and ignore safe work procedures. Safety Shorts. <i>(also in Spanish - 009)</i>	F24	VHS	5 min
Hazardous Materials	Chemicals	Handling and Using Flammable Liquid	Covers the Safe handling of flammable and volatile liquids.	F39	VHS	10 min
Hazardous Materials	Chemicals	He's not the Man I Married. Could it be Lead?	Motivational video for workers on lead safety in English and Spanish.	L15	VHS DVD	17 min
Hazardous Materials	Chemicals	Hydrogen Sulfide Training	Good for Sewer Plant application. Hydrogen sulfide is one of the most deadly industrial gases. It has been referred to as a silent killer. Covers a wide range of topics including characteristics of H2S, monitoring areas for H2S levels, emergency procedures, hazard minimization, contingency planning, SO2 and more. Safety Source. (Nice Dramatization of leaving your co-worker to get emergency equipment towards the end)	H27	VHS	20 min
Hazardous Materials	Chemicals	Industrial Gases	Will help those who work with industrial gases to handle, transport, and store them safely. Covers cylinders, physical and chemical properties, effects they have on fire, container inspection guidelines, safety devices and emergency procedures. NFPA.	H37	VHS	15 min
Hazardous Materials	Chemicals	It Happened to Me, It Could Happen to you	A safety message from Mike Pryor. For anyone who works with or around chemicals, a first hand account by a worker, telling the story of his accident that caused serious chemical burns over most of his body. Will encourage workers to wear the required PPE, no matter what the job. Advantage video Assoc.	C33	VHS	21 min
Hazardous Materials	Chemicals	Just Say No to Anything That Glows	What glows in the dark and wears a hard hat? The worker who doesn't know how to store hazardous materials. Explore how to make dealing with hazardous materials a kinder and gentler ordeal.	J2	VHS	5 min
Hazardous Materials	Chemicals	Lab Safety: 1 Chemical Hazards	Laboratory workers are routinely exposed to hazardous chemicals. Safe work practices help keep exposures below limits and protect workers from health hazards.	L 1	VHS	5 min
Hazardous Materials	Chemicals	Lab Safety: 2 Potential Hazards	Laboratory worker routinely face physical hazards that can cause serious injury, and even death.	L 2	VHS	5 min
Hazardous Materials	Chemicals	Lead Hazards	The dangers of lead poisoning are described in detail...how it enters the body, symptoms of lead poisoning, reducing risk of exposure, respirator protection and protective equipment. Coastal.	L19	VHS	18 min
Hazardous Materials	Chemicals	Lead In Paint Can Be Deadly	Lead in house paint is an often unrecognized danger to adults and children. Be aware of the dangers and how to avoid them.	L 6	VHS DVD	5 min
Hazardous Materials	Chemicals	Lead! Treat it with Respect.	Designed to reduce lead exposure, this video covers safe exposure levels, monitoring, protective equipment, engineering controls and medical surveillance. Also discusses various health threats from lead, symptoms of lead exposure, body areas affected, exposure limits, emergency response, and housekeeping practices. Coastal.	L16	VHS	17 min
Hazardous Materials	Chemicals	NFPA Hazardous Materials Labeling and Identification	Covers the National Fire Protection Association Hazardous materials labeling method. With the importance of labels and their requirements; color coding; label location and differing degrees (classes) for each hazard type; safety precautions.	N 4	VHS	10 min
Hazardous Materials	Chemicals	Pesticide Worker Safety Information	*Supplement to written training. Topics include: Basic Label recognition, normal and protective work attire, re-entry interval, and symptoms of pesticide poisoning.	P 4	VHS	20 min
Hazardous Materials	Chemicals	Propane Safety	Safety procedures, personal protection equipment, fire prevention and more are reviewed in this film. Handling, storing and refueling portable propane cylinders are examined as well. Safety Source.	P26	VHS	10 min
Hazardous Materials	Chemicals	Safely Using Compressed Gas Cylinders	For workers who handle compressed gas cylinders, this program covers hazards, labels, warning signs, moving and storing. Don Brown.	C29	VHS	10 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Chemicals	The Invisible Killer: Carbon Monoxide	Carbon Monoxide in the workplace is an invisible killer that strikes without warning. Learn to recognize its symptoms and first aid procedures to help anyone overcome. <i>(also in Spanish - 003)</i>	C 3	VHS DVD	5 min
Hazardous Materials	Chemicals	Toxics & Poisons	The potentially serious effects toxic substances have on the human body and explain effective safety precautions that apply to toxic chemicals and poisonous chemicals. Marcom.	T15	VHS	12 min
Hazardous Materials	Chemicals	Working With Pesticides Series Vol. 1	Safe storage and disposal methods.	W14	VHS	15 min
Hazardous Materials	Chemicals	Working With Pesticides Series Vol. 2	Infield clothing, equipment and environmental safety.	W15	VHS	15 min
Hazardous Materials	Chemicals	Working With Pesticides Series Vol. 3	Calibrating, mixing and applying pesticides.	W16	VHS	15 min
Hazardous Materials	Chemicals	Working With Pesticides: Sprayer Operation/Maintenance Guidelines - Vol. 3	Shows thorough equipment inspections, cleaning procedures, proper working attire, different types of tanks and a basic checklist for equipment safety	W17	VHS DVD	15 min
Hazardous Materials	Eye Protection	Eye Injuries - 3-D	Every day, an estimated 1,000 eye injuries occur in American workplaces. This 3-D video illustrates risks of eye injuries and basic guidelines for prevention. Safety Shorts	E21	VHS	5 min
Hazardous Materials	Eye Protection	Eye Protection A New Approach	Covers basic eye protection. Don Brown. <i>(also in Spanish - 030)</i>	E22	VHS DVD	13 min
Hazardous Materials	Eye Protection	HIGH IMPACT: Eye Protection	Can safety glasses save your eyes? Most accident can be prevented by simply wearing proper eye protection. Employees will make a new commitment to eye safety when they see real accidents recreated.	E23	VHS DVD	19 min
Hazardous Materials	Eye Protection	My Precious Eyes	Video discusses diseases of the eye, approved eye protection, and eye injury prevention. Graphic video shows a variety of eye traumas, eye diseases, and motivating scenes of eye injuries. Includes emergency treatment for different types of eye injuries. Good, solid information for eye injury prevention.	M17	VHS DVD	14 min
Hazardous Materials	General Safety	An Employee's Guide to Working With Hazardous Materials	This video explains the different types of hazards, health or physical. It reviews different types of warning labels and discusses how to read MSDS. It reviews hazard protections, preventions and detection and gives warning signs of possible hazards.	E18	VHS	12 min
Hazardous Materials	General Safety	Hazmat - Decontamination	Isolate, define, entry, identify, decontamination.	H50	VHS	15 min
Hazardous Materials	Handling/Transporting	Control & Prevention of Spills	This 2-part program covers procedures using live-action scenes of a spill containment and clean-up. Proper storage, handling and inspection of containers are shown. Also tells how to inspect containers for wear and corrosion, check lids and hoses for leaks and cracks and recognize the warning signs to prevent a spill from occurring. Summit.	S55	VHS	23 min
Hazardous Materials	Handling/Transporting	Drum & Other Small Spills	Covers controlling, containing and clean-up. Identify the spilled material, evaluate the hazards, establish communication, ensure people are protected, implement control, contain and clean-up. Industrial Training Syst. Corp.	H45	VHS	15 min
Hazardous Materials	Handling/Transporting	Hazardous Chemicals	Tells how to transport, handle and store hazardous chemicals safely. Covers potential hazards types of chemicals, labeling systems, PPE, procedures for handling a small spill or leak and the importance of following an emergency response plan. NFPA.	H36	VHS	15 min
Hazardous Materials	Handling/Transporting	Hazardous Materials Regulations: Overview	Transporting hazardous materials (hazmat) can pose serious threats to public safety.	H15	VHS	5 min
Hazardous Materials	Handling/Transporting	Hazmat Transportation - Handling Non-bulk Packages	There are over 35 different types of labels used to identify the specific hazards associated w/hazardous materials. Covers: What is non-bulk packaging, selecting the proper non-bulk packaging, and transporting non-bulk packaging. Summit.	H42	VHS	10 min
Hazardous Materials	Handling/Transporting	Hazwoper Part 1: Training & Information	The US Dept. of Transportation has established laws regulating the transportation and shipping of hazardous materials. To help reduce incidents involving employers and employees are required to know and follow HMR requirement.	H16	VHS	5 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Handling/Transporting	Hazwoper First Responder - Operations Level Response	Focuses on Level 2 Responders who are trained to contain the release from a safe distance, keep it from spreading and present expertise in other crucial areas. Hazard & Risk Assessment, PPE, Hazardous material terms, basic control, containment and confinement, basic decontamination and operating procedures. Coastal.	H51	VHS	20 min
Hazardous Materials	Hazardous Communications	Facts About the Hazard Communication Standard	Covers chemical hazard awareness, labeling, MSDS sheets.	F 2	VHS DVD	11 min
Hazardous Materials	Hazardous Communications	Hazard Communication	Covers evaluation, proper labels, Maintaining MSDS, employee training, and a written plan. (Informative but dated clothing, hair)	H33	VHS	10 min
Hazardous Materials	Hazardous Communications	Hazard Communication - Right to Know (Solid Wastes)	Looks at the laws in place to define hazards, safe handling of hazardous materials, addresses proper labeling, proper container usage, MSDS, and other controls. Don Brown.	H47	VHS	10 min
Hazardous Materials	Hazardous Communications	Hazard Communication for Janitors/Custodians	Covers employee's rights and safety concepts, MSDS chemical labeling, storage, handling, chemical characteristics, and effects, necessary protection, spillage/leakage/accident procedures, first aid.	H 9	VHS	10 min
Hazardous Materials	Hazardous Communications	Hazard Communication for Office Personnel	Basic hazard communication training program, but oriented to the office environment and the chemicals most closely associated with office. Don Brown.	H12	VHS	9 min
Hazardous Materials	Hazardous Communications	Hazard Communication: A Guide To Compliance	Step-by-step video to keep your Right to Know program in compliance with the latest OSHA regulations. Whether you are setting up a program or have a well-established one in place, use this video to communicate compliance requirements to all supervisors in your company. Aura Pictures.	H 8	VHS	16 min
Hazardous Materials	Hazardous Communications	Hazard Communications	This video talks about different types of hazards, labeling requirements, MSDS sheet, and the written plan for hazard communications. Don Brown.	H11	VHS	17 min
Hazardous Materials	Hazardous Communications	Hazard Communications Today	Reviews evaluation of all chemicals, proper labels, maintaining MSDS sheets, employee training and a written plan. Summit.	H52	VHS	10 min
Hazardous Materials	Hazardous Communications	Hazard Communications Training	Training is required for any chemical or material that poses a physical or health hazard. This video provides basic information and satisfies the requirements to Cal/OSHA. Includes: Manufacturer's directions, How to read Material Safety Data Sheets, mixing chemicals, personal protective equipment, potential health hazards, emergency first aid, clean-up of spills & leaks and disposal of hazardous waste.	H10	VHS	13 min
Hazardous Materials	Hazardous Communications	Hazard Communications: Your Rights to Know	MSDS sheets: explained by each section in detail and common chemical rules & regulations.	H14	VHS	12 min
Hazardous Materials	Hazardous Communications	Hazmat Case Studies	covers the Agway Fire Westbrook, ME, a chemical warehouse fire in Anaheim, Ca; a tanker-trailer accident in Benicia, Ca; and a train derailment in Livingston, La.	H34	VHS	30 min
Hazardous Materials	Hazardous Communications	Hazwoper: Exposure Monitoring & Medical Surveillance	Discusses various types of exposure monitoring equipment and techniques. How equipment is used to evaluate the health of anyone who regularly works around hazardous chemicals. Includes direct-reading instruments, sampling collection devices, site characterization, general on-site monitoring, perimeter monitoring, medical surveillance programs, medical exams and written medical opinions. The Film Library.	H40	VHS	25 min
Hazardous Materials	Hazardous Communications	Intro to Hazwoper Retraining	Reminder for employees of the importance of identifying, evaluating and controlling chemicals hazards. Includes background of the regulations, the site safety and health plan, the Emergency Response Plan, site characterization and site control program, systems of controls and standard operating procedures, PPE, exposure monitoring, the medical surveillance program, decontamination and more. The Film Library.	H39	VHS	23 min
Hazardous Materials	Hazardous Communications	Understanding Hazwoper	Explains the regulations to help employees reduce or eliminate potential exposure to hazardous materials in their work environments. Included are the history of Hazwoper regulations, definitions of hazardous chemicals and waste, container labels, MSDS, site safety and health plan, medical surveillance program, decontamination and more. The Film Library.	H41	VHS	20 min
Hazardous Materials	Hazardous Communications	What's Wrong With This Picture? Hazard Communication Training	An innovative style holds the viewer's attention while providing the essential training and information needed to work with chemicals safely. Incorrect and correct chemical safety procedures are re-enacted in a wide variety of work settings.	W 6	VHS	17 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Hearing	Hearing Conservation	It is important to protect your hearing at work, at home and at leisure. Video includes ear function, testing, training and protection. <i>(also in Spanish - 034)</i>	H18	VHS DVD	12 min
Hazardous Materials	Hearing	Hearing Protection	Covers hazardous noise levels, how the ear works, the difference between sound and noise, and the importance of hearing protection. A quick quiz at the end.	H32	VHS	10 min
Hazardous Materials	Hearing	Now Hear This	Hearing loss caused by excessive noise may be permanent. Help protect your hearing by knowing how much noise is too much noise and by following requirements for hearing protection.	N 5	VHS DVD	5 min
Hazardous Materials	Personal Protective Equipment	Air Purifying Respirators	Explains this type of respirator, how it works, basic components, canisters or filters, types of hazards they work best against and more. Summit.	R13	VHS	11 min
Hazardous Materials	Personal Protective Equipment	Air Supplying Respirators	Covers the situations this type of respirator should be used for, the three main types (air line, self-contained breathing apparatus, and combination self-contained and air line), how to protect workers from hazards and more. Summit.	R15	VHS	11 min
Hazardous Materials	Personal Protective Equipment	Animated Guide to Respiratory Protection	This video talks about Respiratory Protection from an animated point of view. 3M.	A10	VHS	14 min
Hazardous Materials	Personal Protective Equipment	Corrosives & Irritants	Why corrosives and irritants are hazardous and how to properly handle and store them. Stresses PPE, emergency first aid and clean-up treatments. Marcom.	H35	VHS	11 min
Hazardous Materials	Personal Protective Equipment	Hand Safety	The irreplaceable tools.	H 3	VHS	15 min
Hazardous Materials	Personal Protective Equipment	Murder On Your Hands	Hand injuries account for nearly one-third of all workplace accidents. A parody of a 1940's detective movie is used to show the need for proper hand protection. Safety Shorts <i>(also in Spanish - 015)</i>	M16	VHS	5 min
Hazardous Materials	Personal Protective Equipment	Personal Protective Equipment: General Industry	Meet OSHA requirements in explaining Personal Protective Equipment for eye, head, hand, and foot injuries. This video also covers respirators, hearing and protective clothing.	P16	VHS DVD	17 min
Hazardous Materials	Personal Protective Equipment	Radiation Hazards	Distinguishes between several sources and types of radiation and the potential for harm. Also covers labeling and storage techniques, protective equipment and emergency disposal procedures. Marcom.	R16	VHS	11 min
Hazardous Materials	Personal Protective Equipment	Respiratory Protection	This video looks at the function of respirators, the situations where they are used as well as the types and the factors governing their use. Fit testing is examined in detail, including main problems. Safety Care Inc.	R 3	VHS DVD	15 min
Hazardous Materials	Personal Protective Equipment	Respiratory Safety & Health	Points out the importance of learning to recognize and guard against respiratory hazards. Covers the physiology of the respiratory system, common causes of respiratory problems, potential effects of respiratory hazards, safety practices and the selection, use and maintenance of safety equipment. Marcom.	R14	VHS	16 min
Hazardous Materials	Personal Protective Equipment	Safety Gear: Foot Protection + Study Guide	Three classifications of safety shoes are identified here. The functions of toe shields, metatarsal guards and puncture resistant soles are explained.	S 9	VHS	11 min
Hazardous Materials	Personal Protective Equipment	Safety Gear: Respirators	What happens to the body when workers breathe in chemical contaminants and are deprived of oxygen? This program will explain details and introduce different uses of air purifying and air supplying respirators, and will discuss the proper equip. Aims.	S10	VHS	12 min
Hazardous Materials	Personal Protective Equipment	Save Your Breath	Covers basic safety and health issues regarding to respirator types uses and care. Marcom.	R19	VHS	10 min
Hazardous Materials	Personal Protective Equipment	SCBA Care & Maintenance: The Time is Now!	The importance of SCBA apparatus is demonstrated, stressing respiratory hazards, maintenance, selection of the right gear for the job, fitting and adjusting and safety training. Coastal.	S53	VHS	15 min
Hazardous Materials	Personal Protective Equipment	Selection & Use of Protective Equipment	Shows how to select the appropriate personal protective equipment for the job. Covers the various body areas that must be protected, specific vulnerabilities of each area, common types of PPE, equipment variations within each job, how to match equipment to job hazards, and the proper care and use of equipment. Marcom.	P24	VHS	15 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Hazardous Materials	Personal Protective Equipment	Skin Care and Safety	This video teaches employees to prevent skin problems by being aware of hazards in the workplace, wearing appropriate protection and handling hazardous materials properly. Bureau of Business Practice.	S25	VHS	12 min
Hazardous Materials	Personal Protective Equipment	The Skin Game	Dermatitis is an uncomfortable & preventable skin problem. This video shows some of the avoidable causes, and puts forth some pre-emptive safety solutions. Safety Shorts.	S26	VHS	5 min
Hazardous Materials	Personal Protective Equipment	The Survival Game Coaching on PPE	Mixing humor (game-show style) and information, this program covers the areas of vulnerabilities of body parts that require protection, protective equipment, variations with types of equipment, matching the equipment to the hazard and proper use of the equipment. Marcom.	P25	VHS	15 min
Heavy Equipment	Cranes/Lifts	A Lift To Safety	Proper procedures for a safe lift are reviewed. Safety Shorts.	L 8	VHS	5 min
Heavy Equipment	Cranes/Lifts	Aerial Lifts	Aerial lifts provide an easy means to reach work sites above the ground by supplying a level platform to stand on, but they are not accident proof. Summit.	A12	VHS	10 min
Heavy Equipment	Cranes/Lifts	Anatomy of a Lift Crane Safety II	Guaranteed to reduce the occurrence of employee unsafe acts, thereby eliminating the majority of accidents. This video provides employees with a thorough understanding of the concept of unsafe acts and how they contribute to accidents. Safety Shorts.	A 4	VHS	5 min
Heavy Equipment	Cranes/Lifts	Bucket Trucks	Bucket Truck: one type of aerial lift device used to allow workers to gain access to heights. Key points in this video: Equipment design - hazards - clear paths - load limits - personal protective equipment.	B16	VHS DVD	5 min
Heavy Equipment	Cranes/Lifts	Crane Operator Safety	General information on how to operate a crane.	C19	VHS	12 min
Heavy Equipment	Cranes/Lifts	Crane Safety: Outrigger Support & Stability	Workers may be at risk of serious injury or death when a crane tips or overturns. To help avoid accidents, use outriggers and adequate mats as needed to support and stabilize cranes. Safety Shorts.	C20	VHS	5 min
Heavy Equipment	Cranes/Lifts	Cranes, Chains, Slings & Hoist Safety	Designed for anyone operating jib hoists or cranes, this video explains sling angles, safety techniques, inspection procedures and more.	C21	VHS	12 min
Heavy Equipment	Cranes/Lifts	Hazard Awareness in Crane Operating Areas	Alerts operators, riggers and other trades to hazards in crane operating areas. Topics include overhead power lines, proximity of other equipment, ground conditions, and proper use of outriggers. Special interest is the section on load weights and crane capacities. Construction Safety Association Of Ontario.	C37	VHS	15 min
Heavy Equipment	Cranes/Lifts	Hoists, Winches & Related Devices	This video focuses on hoists, come-along, grip hoists, electrically powered trolleys and powered winches (muggers). Choosing proper anchorage points and the effect of direction and load. Construction Safety Association of Ontario.	H44	VHS	20 min
Heavy Equipment	Cranes/Lifts	International Hand Signal (Crane Safety Related)	Signalers are required for a crane operator that does not have a clear view of the machine, load or landing area, judging distance is difficult, or live electrical apparatus or wires are in the area. Reviews hand signals required for communication, in each case the signal is demonstrated from the operator's viewpoint and the corresponding crane action is shown. Construction Safety Association of Ontario	S54	VHS	7 min
Heavy Equipment	Cranes/Lifts	Mobile Crane Safety	For all mobile cranes regardless of type or situations. Gives operators all they need to know about pre-op set-up, load charts, safe work practices, the three-point method of mounting and dismounting and their responsibility for safety of co-workers and themselves. Summit.	C43	VHS	18 min
Heavy Equipment	Cranes/Lifts	Overhead Crane Safety	Covers safe operation and procedures, the importance of pre-operation safety checks, and the terminology relating to overhead cranes. Stresses knowing the limitations of the crane, responsibility of the operator and emergency procedures. Summit.	C38	VHS	18 min
Heavy Equipment	Cranes/Lifts	Overhead Cranes	Overhead Cranes can inflict injuries if misused or abused. To help avoid accidents, follow procedures for inspection, safe operation and preventive maintenance.	O 9	VHS	5 min
Heavy Equipment	Cranes/Lifts	Radio Controlled Crane Safety	Discusses the advantages of these cranes over other types. Stresses the importance of knowing your position in relation to the crane, pre-op safety checks including the hoist limit switch, status lights, etc. Summit.	C35	VHS	15 min
Heavy Equipment	Cranes/Lifts	Rigging Equipment Inspecting for Safety	Emphasizes the importance of making sure that equipment is in safe condition before it is used. Describes the kinds of wear and damage to look for, when to tag the equipment out of service and presents highlights of periodic, detailed inspections.	R18	VHS	16 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Heavy Equipment	Cranes/Lifts	Signal, The Universal Hand Signal	When working around cranes, knowing the proper way to direct them is essential. Widely used international hand signals for directing cranes are reviewed. Safety Shorts. <i>(also in Spanish - 024)</i>	S23	VHS	5 min
Heavy Equipment	Cranes/Lifts	Up, Up & Aware	The tricks and hazards working with Aerial and other types of lifting platforms are shown. Safety Shorts.	U 6	VHS	5 min
Heavy Equipment	Cranes/Lifts	Working On Aerial Lifts, Cranes and Swing Stages	The thousands of people who are injured each year from falls may lack training or experience; be careless or overconfident; or fail to use equipment properly. This program shows how to safely operate aerial lifts, cranes, and swing stages.	W10	VHS DVD	15 min
Heavy Equipment	Forklift	Basic Forklift Principles	Gives a basic overview of mechanical components, the lifting principle and safe operating techniques. Coastal.	F36	VHS	14 min
Heavy Equipment	Forklift	Battery Changing & Refueling (Forklifts)	Covers safe removal and recharging of batteries, best safety practices for fuel-powered forklifts and PPE.	F33	VHS	11 min
Heavy Equipment	Forklift	Danger: Hazardous Duty Loading Docks	Loading docks and warehouses are among the most dangerous areas in the workplace. Hapless Hal learns a few important things about safety while working in these areas. <i>(also in Spanish - 004)</i>	D 2	VHS	5 min
Heavy Equipment	Forklift	Forklift and Pedestrian Safety	More injuries happen to those around forklifts than to operators. Educate both drivers and those who work around the proximity of forklifts.	F22	VHS	14 min
Heavy Equipment	Forklift	Forklift Driving Skills	Discusses 3 main topics: The importance of driver safety; potential accident areas; and how to prevent accidents. Makes the point that speed is the most common cause of forklift accidents.	F19	VHS DVD	7 min
Heavy Equipment	Forklift	Forklift Driving Skills	Covers Basic Driving Skills, conditions, load techniques, and proper parking skills.	F28	VHS	10 min
Heavy Equipment	Forklift	Forklift Load Capacity...	Discusses the three-point suspension system; load capacity; fulcrum, and combined center of gravity. (Safety supervisor may want to point out that operators are not wearing their seatbelts, and one fails to look back when loading.)	F20	VHS DVD	5 min
Heavy Equipment	Forklift	Forklift Operator Safety Training	Covers safety topics that are critical to avoiding accidents and injuries, including general safety, pre-operation, operation, load handling, fuel/battery maintenance, and specializing units.	F27	VHS DVD	27 min
Heavy Equipment	Forklift	Forklift Safety	Forklifts are powerful equipment your employees must respect. This video covers: engineering principles, operator training, work basket, parking regulations, safety operator rules, trailer checks, ramp safety, and operator maintenance. Slightly out of date, but good info.	F18	VHS DVD	19 min
Heavy Equipment	Forklift	Forklift Safety OSHA Final Rule	Specialized training and certification of all operators; Safe operating procedures: mounting, spotters, inclines, parking; Forklift stability: center of gravity, operating surfaces; Refueling common types of forklifts. The Training Network.	F26	VHS	17 min
Heavy Equipment	Forklift	Forklift Safety: The Professional Driver	The speaker talks about several forklift accidents. (Dated hair and attire but good music)	F29	VHS	10 min
Heavy Equipment	Forklift	Lift Truck: Inspections & Emergency Procedures	Reviews inspection and emergency procedures. NSC & Weyerhaeuser.	F30	VHS	11 min
Heavy Equipment	Forklift	Lift Truck: Safe Operating Rules	Reviews safe operating rules. NSC & Weyerhaeuser.	F31	VHS	25 min
Heavy Equipment	Forklift	On the Up and Up Forklift Safety	Good information on forklift safety presented humorously. Good video. The Film Library.	F35	VHS	15 min
Heavy Equipment	Forklift	Operating a Forklift Safely	Knowledge, skills and confidence. Reviews working knowledge of forklift and safe operation. Pre-use inspection, proper handling of battery and propane, rated capacity, and basic operating techniques.	F37	VHS	10 min
Heavy Equipment	Forklift	Safe Operation of Pendant Controlled Cranes	This video covers: operator safety, operational checks, safe operation. It has good basics, although it is an older video. (Safety Managers Note: The narration calls for 2 wraps on the drum to be lifted; code says 3)	S 5	VHS	8 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Heavy Equipment	Forklift	Safety of People & Equipment in Warehouse Operations	How forklift operators can co-exist with other personnel. Emphasizes individual responsibility for safety of all workers, not just the equipment operators. Don Brown.	W25	VHS	10 min
Heavy Equipment	Forklift	Updated Forklift Operator Training	This video is comprehensive and helps meet OSHA training requirements for forklift operators. General safe operating procedures, engineering principles, centers of gravity, fulcrum points, raised loads, rear wheel steering and more. A great program for training operators on the new regulations.	U 7	VHS	19 min
Heavy Equipment	Forklift	Upright Safety: Portable Personnel Lift Training	Subject to availability, Instructor Video: General safety rules for operating a Portable Personnel Lift (Aerial Man Lift-Non Self Propelled). Good information.	U 5	VHS	11 min
Heavy Equipment	T-L-B	Backhoe Safety	Focusing on tractor-loader backhoes, this program is filled with real-world tips and advice on safe backhoe operation. Pre-inspection/start-up hazards, safety loading, transporting and unloading trailers, safe work practices for crew personnel, proper positioning, excavation techniques and emergency procedures.	B21	VHSDVD	18 min
Heavy Equipment	T-L-B	Backhoe/Loader Operations	General safety practice and operating rules for anyone assigned the job of operating backhoe loader. Explains basic operator maintenance procedures.	B 5	VHS DVD	10 min
Heavy Equipment	T-L-B	Large Equipment Landscape Equip. Safety	Covers safe operating techniques for tractor, loaders and backhoes. Includes checklist for equipment safety, job site inspection, proper working attire and accessories. The Idea Bank.	L 5	VHS	20 min
Heavy Equipment	T-L-B	Tractor Loader Backhoe	T-L-B workers are in the center of countless hazards. A 360 degree perspective can keep you safe. Discussed: visibility, use of the 'one call' system, on and off safety, stabilizers and weight distribution. <i>(also in Spanish - 025)</i>	T 6	VHS	5 min
Off the Job Safety	Handguns, Hunting	Firearm Safety Begins In the Home	Every family member needs to know proper means of handling firearms. Video covers common bad habits and ways to correct them.	F 6	VHS	22 min
Off the Job Safety	Handguns, Hunting	Handgun Safety	Each Year approximately 1,000 American's will die from handgun accidents. A few simple, important rules for handgun safety are covered.	H 2	VHS	5 min
Off the Job Safety	Handguns, Hunting	The First Hunt	Hunting can be an enjoyable sport that can last a lifetime for an entire family. The need for proper hunter safety instruction before taking that first shot is shown.	F13	VHS	5 min
Off the Job Safety	Holidays	Hapless Hal's Holiday Hints	Mishaps can quickly dampen your holiday spirit. Risks of fires, crime, and alcohol-related injuries increase during the holiday season. Hapless Hal illustrates ways to reduce these risks by making safety a holiday tradition.	H 6	VHS	5 min
Off the Job Safety	Holidays	Holiday Hazards in The Home	This program describes some of the hazards unique to the Christmas holiday season. Toxic plants, dangerous toys, poisonous look-alikes, fire hazards, and safety tips are discussed in detail. Aims.	H20	VHS	12 min
Off the Job Safety	Home	Home Safety	Make your home a "Safe Haven". Video alerts you to common safety hazards that could be present in your home and includes tips to help you eliminate them. Copy 1 includes CD with interactive home safety test. Copy 2 is a video only.	H31	VHS	10 min
Off the Job Safety	Home	Swimming Pool Safety	Talks about how to prevent and resolve accidents, basic pool maintenance and operation, swimming pool guidelines, and the danger of chlorine gas and leaks.	S42	VHS	20 min
Off the Job Safety	Recreation	Off the Job Safety "Fun in the Sun"	Entertaining as well as motivational, this video creates awareness for potential hazards and provides safety tips for warm weather activities. Includes boating, water skiing, jet skiing, roller blading and much more. Summit.	O12	VHS	18 min
Off the Job Safety	Recreation	Sports Field Safety: A Video Guide for Groundskeepers	Reduce athlete and spectator injuries on your public sports fields! Injury prevention guidelines are provided for baseball, football, soccer as well as track and field facilities.	S32	VHS	15 min
Off the Job Safety	Recreation	The Picture Perfect Vacation	Vacation preparation: for the home, family, car, on the road and destination.	P 9	VHS	14 min
Office	Air Quality	Indoor Air Pollution	Usually thought of as an outdoor problem, air pollution is also a common indoor hazard. The sources of indoor pollutants and steps to alleviate the problem are explained. Safety Shorts. <i>(also in Spanish - 010)</i>	I 3	VHS	5 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Office	Communicating Effectively	Effective Telephone Communications	Covers voice qualities, telephone techniques. Video does not include a workbook.	E 6	VHS DVD	13 min
Office	General Safety	Employee Education: Safety in the Office	This program illustrates the importance of picking up pencils, paper clips, and other objects that cause falls, and making sure that telephone and electrical cords aren't lying across pathways.	E16	VHS DVD	13 min
Office	General Safety	Introduction to Safety Office Safety	Offices accidents can and do happen. To prevent injuries, make safety your responsibility. Safety Short.	I 8	VHS	5 min
Office	General Safety	Office Safety	Employee awareness is the key to this film. It demonstrates how to create a safe office while reducing the chances of accidents and personal injury. Topics include" fire safety, protecting your back, toxic substance poisoning, and avoiding the dangers of CDT.	O 1	VHS	20 min
Office	General Safety	Office Safety Basics	Covers basic Safety for in and around the office.	O10	VHS	8 min
Office	General Safety	Office Safety: Personal Workspace	Clutter in the workplace often creates more than an eyesore - it can get in the way of safety. Stacks of paper, boxes, trash and other items that collect throughout the work area can be fire hazards and can even block safe exits. The importance of an orderly workplace and its role in keeping hazards to a minimum are explained.	O 2	VHS	5 min
Office	General Safety	Safety Orientation In Office Environments	This is a good overall video. It covers current regulations and deals with topics such as: engineering principles, operator training, work basket, parking regulations, safety operator rules, trailer checks, ramp safety, and operator maintenance. Aims.	S14	VHS	12 min
Safety Orientation	Communicating Effectively	Communicating with Irate Customers	Covers how to calm an angry customer and phone complaints. Does not include a workbook.	C13	VHS DVD	14 min
Safety Orientation	Communicating Effectively	Communication is Selling	Covers features and benefits, deadly sins of selling, handling objections and closing signals. Does not include a workbook.	C14	VHS	16 min
Safety Orientation	Communicating Effectively	Conflict Communication Skills Video	At some point in your work history, you will encounter some form of hostility. Whether it's an upset co-worker or a dissatisfied customer, your response can make the difference between a stressful work environment and a pleasant work environment.	C16	VHS DVD	14 min
Safety Orientation	Communicating Effectively	Diversity and Discrimination	Focuses on different forms of discrimination and how to avoid it. Employees will also learn how to work with different people and why a diverse work environment is important.	D12	VHS DVD	10 min
Safety Orientation	Communicating Effectively	Effective Safety Meetings	Get the most out of work-hours spent on training by sharpening your skills at creating highly effective safety meetings.	E 5	VHS	5 min
Safety Orientation	Communicating Effectively	Professional Word Power	Shows how to communicate effectively with customers. Topics include: Word difference, action words, sales vocabulary, and dirty words of selling. Does not include workbook.	P21	VHS	16 min
Safety Orientation	Communicating Effectively	The Art of Questioning	In today's competitive marketplace, providing superior service to both internal and external customers is critical to distinguishing yourself from the competition. This series of programs addresses communicating with the customer as an important sales act.	A 5	VHS DVD	16 min
Safety Orientation	Crime Prevention	Crimes of Opportunity	Protect yourself from becoming a victim at work or on the street. Segments show viewers what to do: if your car breaks down in an unfamiliar neighborhood, if you feel like you're being followed, if faced with an armed assailant, and more. The Idea Bank.	C22	VHS	30 min
Safety Orientation	Crime Prevention	Violence In the Workplace	Violence in the workplace is on the rise. Precautions include recognizing the potential for violence and knowing what to do in the event of an attack.	V 3	VHS DVD	7 min
Safety Orientation	Crime Prevention	Violence In the Workplace: Raising Your Employees' Awareness	Helps employees understand the different forms of violence, the warning signs of potential violence, and what to do if a violent - or potentially violent situation arises. Also covers the benefits of a non-hostile work environment. Leader Guide. JJ Keller.	V 5	VHS	10 min
Safety Orientation	Crime Prevention	Violence on the Job	Homicide in the workplace is the third leading cause of job-related fatalities and the second leading cause of job-related fatalities for women. Discusses practical measures for identifying risk factors for violence at work, and taking strategic action to keep employees safe. It is based on extensive NIOSH research, supplemented with information from other authoritative sources. NIOSH.	V 6	DVD	27 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Safety Orientation	General Safety	A Million Excuses	This engaging video presents common excuses to avoid safety procedures and responses to those excuses. Set in a variety of industrial settings, workers learn the importance of eye protection, chemical safety, safe lifting techniques, and safety policies & procedures.	M23	DVD	10 min
Safety Orientation	General Safety	Accidents: The Gory Story	Tells workers that accidents don't just happen...they're caused. Contains gory pictures of persons injured in the workplace. Will have a definite impact on workers proving that injuries can be very serious.	A13	VHS	10 min
Safety Orientation	General Safety	Administrated Employee Safety Orientation	A general safety awareness video that hits on several different subjects: property clothing, lifting, machine guards, fire prevention, slips, trips and falls, ladder safety, home safety, chemical safety, labels, electrical and shock prevention, plus more.	A 3	VHS DVD	14 min
Safety Orientation	General Safety	Book 'em Danno	This humorous takeoff shows a 1940s-style private investigator that reports to work early and walks around the workplace detecting numerous hazards. Will lighten any safety training program, yet improve safety awareness for all employees. Don Brown.	D29	VHS	14 min
Safety Orientation	General Safety	Developing a Passion for Safety	Taped live with an audience of Safety Engineers in Honolulu, HI, Art Fettig talks about SCHINDLER'S LIST and keeping your passion for safety alive every day. Art Fettig's Growth Unlimited Inc.	D 6	VHS	32 min
Safety Orientation	General Safety	Employee Safety Training	SB 198. Use this video as you introduce your Injury/Illness Prevention Program. Get common sense instruction about proper work procedures, safety rules, proper dress and protective clothing, good housekeeping, lifting, slips, trips, falls and more.	E17	VHS DVD	12 min
Safety Orientation	General Safety	Introduction to Safety: Warehouse Industry	Warehouses can be dangerous because there is so much activity. To help prevent accidents, stay alert for hazards and use safe work practices for materials handling. Safety Shorts.	I 6	VHS	5 min
Safety Orientation	General Safety	It Only Takes a Second	This video is designed to grab the viewer's attention and focus their thoughts on safety. It is a tool to set the stage for discussion on nearly any safety issue.	I 7	VHS	3 min
Safety Orientation	General Safety	Just Horsing Around	Joking around on the job is no laughing matter. The video shows what can happen if a job is not taken seriously. <i>(also in Spanish - 011)</i>	J 1	VHS	5 min
Safety Orientation	General Safety	Lighting Up Your Life	How much light is too much, or not enough? A semi-humorous light is cast on the topic of safe lighting tips and techniques.	L10	VHS DVD	5 min
Safety Orientation	General Safety	Outdoor Safety: Critters and Plants	The beauty and tranquility of the outdoor world may be dangerously deceptive to the unwary and uninformed. Two surveyors learn valuable lessons in outdoor safety.	O 8	VHS DVD	5 min
Safety Orientation	General Safety	Personal Protective Equipment	This comprehensive DVD stresses the importance of assessing the hazards prior to personal protection equipment selection, and demonstrates proper use of equipment, including: hard hats, respirators, protective clothing, eye protection, shoes, gloves, and more. Summit.	P28	DVD	6 min
Safety Orientation	General Safety	Power Equipment in the Warehouse	Storage facilities have a high risk of injury. Outlines safety procedures for the correct operation and maintenance of warehouse equipment, techniques for handling equipment on loading docks are illustrated, including checking trailer wheels, inspecting dock boards, working inside a real car, and operating forklifts. Rules for stacking and picking orders are reviewed, along with tips for the safe operation of hoist and conveyors.	P11	VHS	12 min
Safety Orientation	General Safety	Public Agency Safety 3	The various dangers around the job sites are reviewed, including flagging safety, small site traffic control and skin protection. Don Brown.	T19	VHS	10 min
Safety Orientation	General Safety	Reducing Unsafe Acts: Human Behavior	Explains what an unsafe act is and how accidents are caused. For either workers or supervisors. Can help any safety program. Don Brown.	R22	VHS	10 min
Safety Orientation	General Safety	Reporting For Work	Instructs workers on the responsibilities for reporting for work in proper clothing with a proper safety attitude. General introduction to safety basics that will supplement any safety orientation program for workers. Don Brown	R20	VHS	13 min
Safety Orientation	General Safety	Room to Live	An officer (Sgt. Jack Ware) discusses his observations at accident sites. A very "moving" film that seems to reach a majority of its viewers. RM.	R10	VHS	9 min
Safety Orientation	General Safety	Safety Orientation and Accident Prevention	Meets OSHA training requirements for exposure to general hazards. Basic safety information suitable for training new and experienced employees. Safety Source.	S60	DVD	12 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Safety Orientation	General Safety	Silence of the Slams	Sal is the most unsafe crook in America. Will this guy wise up, or be sent to the chair, at the prison for the criminally unsafe? This video takes a humorous approach to selling employees on the concept of safety.	S24	VHS	5 min
Safety Orientation	General Safety	Subcontractor Safety Orientation	General coverage of rules, regulations and responsibilities for safety on the job site.	S37	VHS	10 min
Safety Orientation	General Safety	The Safety Secret	Emphasizes the importance of developing the right safety attitude and how it affects us and the people we come in contact with. Focuses on safety in the office, the factory, at home, and even on the highway, with the message that it is up to each individual to make safety an important part of everyday life. American Media, Inc.	S59	VHS	22 min
Safety Orientation	General Safety	Thinking It Through	The mark of the professional Supervisor. ITS.	T 4	VHS	22 min
Safety Orientation	General Safety	Timing Is Everything	Shift work can be hazardous because it interferes with the body's natural daily rhythm. Workers are alerted to the potential dangers of shift work and how to avoid accidents. Safety Shorts.	T 5	VHS	5 min
Safety Orientation	General Safety	Training Needs Assessment	Shows how a Training Needs Assessment Program can greatly assist managers in saving time, increasing productivity and being sure that there are trained people in all areas. Bureau of Business Practice.	T18	VHS	20 min
Safety Orientation	General Safety	Universal Precaution: Nursing	General safety practices.	U 3	VHS	5 min
Safety Orientation	General Safety	Warehouse: Distribution Center Safety	This video covers: motorized vehicles; operation/pedestrian teamwork; lifting with safety cages; fire prevention and safety; ladder safety; material handling and safe lifting; cardboard cutters and accident reporting.	W 1	VHS	10 min
Safety Orientation	General Safety	Working Together: ADA	The passage of the ADA is bringing more people into the workforce. Tips on how the able and the disabled can work together are offered.	W13	VHS	5 min
Safety Orientation	General Safety	Workplace Fatalities: Most Common Causes	Every year, thousands of workers die from job-related accidents. Primary causes are highway traffic accidents, homicides, falls, contact with flying or falling objects and electrocution. To help prevent accidents, be alert for hazards, and follow safety and health instructions at all times. Safety Shorts.	W21	VHS	5 min
Safety Orientation	Housekeeping	Accident Causes and Prevention	Guaranteed to reduce the occurrence of employee unsafe acts, thereby eliminating the majority of accidents. This video provides employees with a thorough understanding of the concept of unsafe acts and how they contribute to accidents.	A 2	VHS DVD	11 min
Safety Orientation	Housekeeping	Bacteria & Disease Control	(Janitorial & Custodial Related) Covers basic sanitation and cleanliness, how bacteria can be harmful and what to do about it. Suitable for all janitorial or custodial personnel. Don Brown.	B26	VHS	10 min
Safety Orientation	Housekeeping	Falling Objects	Keeping an eye out and being aware are the first steps to insure you are not the victim of a falling object. Good housekeeping and keeping track of equipment is another.	F 4	VHS DVD	5 min
Safety Orientation	Housekeeping	Good Housekeeping	A strict housekeeping policy is an essential part of any safety plan and makes a better work environment. This program covers hygiene, waste control, machinery, storage, fire hazards and more.	H43	VHS	10 min
Safety Orientation	Housekeeping	Incident Investigation	Features 5 lessons containing 15 instructive interactions that will teach your employees about the skills and techniques necessary to identify the true root causes of any incident or accident, and develop corrective actions. Summit.	I 9	VHS	15 min
Safety Orientation	Housekeeping	On Any Given Day	Accidents can happen at any time, often without warning. General statistics and the benefits of taking safety seriously are presented in this attention-grabbing video.	O 3	VHS	5 min
Safety Orientation	Housekeeping	Safety: Housekeeping and Accident Protection	Shows employees how to pay special attention to housekeeping considerations. It encourages them to develop a Safety First state of mind, recognize potentially hazardous conditions, and become familiar with risks involved in their jobs. It emphasizes preparation & knowledge when handling tools, chemicals, and personal protective equipment.	S11	VHS DVD	17 min
Safety Orientation	Housekeeping	Sanitation & Cleanliness in Food Service Establishments	Explains sanitation and cleaning procedures, safety and all other necessary information to improve cleaning and sanitizing in food service areas. For all custodial or janitorial personnel. Don Brown.	S56	VHS	12 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Safety Orientation	Housekeeping	Sanitation/Hygiene for Food Service Employees	For workers in food and beverage service, covers adequate sanitation, bacteria growth, temperature controls, personal hygiene, food handling and insect/rodent control. Don Brown.	S57	VHS	12 min
Safety Orientation	Housekeeping	Star Witness: Accident Reporting	This Safety Shorts video reminds workers that observing the details of an accident and reporting them accurately can prevent lost time in the future.	S44	VHS	7 min
Safety Orientation	Housekeeping	Three Steps to Safety	A job hazard analysis that workers and employers use to define, analyze and prevent potential hazards before they occur. How to use this concept every day is explained.	T 7	VHS	5 min
Safety Orientation	Machine Guarding	Machine Guarding	The importance of knowing the potential hazards of working with machinery is discussed in this program, along with the guards and devices that protect workers from injury. Covers: Point of operation hazards, nip points, PPE, barriers and shields, restraints, pullback devices and other safeguards. Tel-A Train.	M22	VHS	16 min
Safety Orientation	Machine Guarding	Machine Guards	This program is for employees as well as supervisors. It explains machine guarding is all about. Lockout, tagout, interlocks, photo cells, two-hand trip devices and more are covered in detail.	M 1	VHS DVD	12 min
Safety Orientation	Machine Guarding	Machine Safeguarding	Supervisor's development program.	M 3	VHS	9 min
Safety Orientation	Machine Guarding	Machine Safety Guards	Machine guards protect the worker from dangerous moving machine parts. See how machine guards work and learn some safety tips to keep in mind when using them. Safety Shorts. <i>(also in Spanish - 014)</i>	M 2	VHS	5 min
Safety Orientation	Maintenance	HIGH IMPACT: Maintenance Safety	Attitudes often make the difference between life and death when maintenance workers confront dangerous hazards on the job. The video shows re-enactments of eleven actual accidents suffered by these employees and offers the lessons to be learned from them.	M 4	VHS	19 min
Safety Orientation	Maintenance	Maintenance Safety + Leaders Guide	This video includes: 3 life saving safety attitudes, ladder safety, welding and cutting, gas cylinders, personal fall protection, Lock Out / Tag Out, confined spaces, clearing jams in equipment, line-braking, common electrical mistakes, listening to the "voice of experience," failing to get help when needed and much more.	M 5	VHS DVD	19 min
Safety Orientation	Maintenance	Motor Fleet Maintenance Safety	Motivate your fleet repair staff to see safety as part of their job and as a professional! This video will help them review basic safety tips and industry-specific safety.	M14	VHS	12 min
Safety Orientation	OSHA/Law Compliance	Documentation of Safety Efforts	For legal protection, your company must be able to provide regulatory agencies with written documentation of: your training and safety efforts; safety orientations/training; quizzes and tests; employee signatures; safety policies and procedures; a hazard identification and correction program; and your proof of inspections.	D 8	VHS	10 min
Safety Orientation	OSHA/Law Compliance	Facts About OSHA Inspections	OSHA ensures compliance with their regulations through inspections. Learn priorities, procedures & legal ramifications. OSHA's inspection priorities, your records and injury rate, inspection process, closing conference, citations and penalties.	F 1	VHS DVD	12 min
Safety Orientation	OSHA/Law Compliance	How to Develop a Safety Program	This video explains how supervisor are the key to the program; how they provide leadership in a manufacturing environment. When implemented, have reduced accidents and injuries by as much as 50% to 75%.	H23	VHS	19 min
Safety Orientation	OSHA/Law Compliance	Life is for Living-Safety Meeting Opener	This is an excellent tool to begin safety meetings or to stimulate discussion on nearly any safety topic. The theme of the video reminds viewers of the long-term consequences of injuries. It also illustrates how seemingly minor actions can lead to serious injuries.	L14	VHS	3 min
Safety Orientation	OSHA/Law Compliance	Safety Committees The Real Story	Video looks at causes of poor safety committees and how to improve safety committees.	S 6	VHS	12 min
Safety Orientation	Restaurant	Bus Person, Dishwasher & Janitor Safety	A good safety attitude is essential when working in these service jobs. Includes teamwork and safety awareness, proper dressing, footwear and grooming, preventing cuts and burns, chemical and electrical hazards, and back injury prevention. Don Brown. <i>(also comes in Spanish - 031)</i>	B17	VHS	13 min
Safety Orientation	Restaurant	Human Behavior Reducing Unsafe Acts	Relating to Restaurants/Food Service. Explains what unsafe acts are and how to eliminate them. Good for reducing restaurant accidents and injuries. For either management or employees. Don Brown.	H38	VHS	12 min
Safety Orientation	Restaurant	Restaurant Accident Investigation	This is a program for supervisors and managers. It explains accident investigations, what to look for in an investigation, witness statements and fact-finding process.	R 4	VHS	11 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Safety Orientation	Restaurant	Restaurant Sanitation & Personal Hygiene	Your food service employees have a responsibility to maintain a clean germ-free work environment. Ensure they understand their safety role by giving them practical, common sense methods. <i>(also in Spanish - 036)</i>	R 5	VHS	13 min
Safety Orientation	Restaurant	Sanitation In Health Care Cafeterias	Designed for employees working in cafeteria, including cleanup personnel, dishwashers, food services, cooks and maintenance staff. It explains bacteria, food handling, cleaning/sanitizing and more.	S16	VHS	13 min
Safety Orientation	Sexual Harassment	Preventing Sexual Harassment For Employees	Recently awarded 1st place in the " Best of Training" group in Compliance Magazine's annual Commitment to sexual harassment, explains how to avoid inadvertently harassing coworkers, and what procedures to follow if an employee feels like he/she is being harassed.	P30	DVD	16 min
Safety Orientation	Sexual Harassment	Sexual Harassment	Defines sexual harassment, what constitutes it, and the laws surrounding it. Teaches employees how to avoid sexual harassment and discuss the benefits of doing so.	S50	VHS	10 min
Safety Orientation	Sexual Harassment	Sexual Harassment: Training for Employees	Video geared toward Management and/or H.R. Dept., however, suitable for all employee viewing. Sexual Harassment is first defined and presented in acting scenarios. Then followed by methods and options to squelch unwanted advances. Also, how to report incidents.	S47	VHS	21 min
Safety Orientation	Substance Abuse	Drugs & Alcohol in the Workplace	The variety of options available to handle this problem is discussed in this video. Covers: Safety and productivity, a policy statement for dealing with drug dependency, employee assistance programs, confidentiality, drug testing, self-denial and more. Safety Care.	D28	VHS	12 min
Safety Orientation	Substance Abuse	Drug Abuse: Symptoms of Dependency	Many people who don't think themselves to be drug abusers can become dependant on chemical substances, either legal or illegal. This video dramatizes on and off-the-job situations that signal the approach of a real problem.	D 9	DVD	23 min
Safety Orientation	Substance Abuse	Hapless Hal & The Temple of Doom	Using drugs and alcohol on the job before driving is a big risk. Hapless Hal learns, the hard way, how consuming these substances can affect physical and mental skills.	H 5	VHS DVD	5 min
Safety Orientation	Substance Abuse	Monday Night & Tuesday Morning	Dramatic true-to-life story of how hangovers can seriously impair performance and create danger at work. Ideal for use in a management-initiated alcohol and drug abuse awareness program. National Safety Council.	M13	VHS DVD	14 min
Safety Orientation	Substance Abuse	Rx For Safety	Careless use of prescription drugs can be dangerous. Workers are warned not to stop early, to double up or to take med. Other than when prescribed. Cautions against mixing with other pills, alcohol or drugs.	R11	VHS	5 min
Safety Orientation	Substance Abuse	Substance Abuse in the Workplace	Covers the dangers of the most commonly abused drugs, how to recognize the warning signs of drug use, and how drug and alcohol abuse affects the work environment. This hard-hitting video explains how employees can help keep their workplace drug and alcohol-free and the benefits of doing so. Also includes information on the different treatment options available to abusers.	S49	VHS	10 min
Specific Hazards	Confined Space	Confined Space Entry - Permit Required	This video program will help protect your employees from the dangers of working in confined spaces. Discusses: Entry Permit Regulation, safe atmosphere testing, personal protective equipment, training the entry team.	C17	VHS DVD	21 min
Specific Hazards	Confined Space	Confined Space Entry & Safety	For any confined space where potentially breathing the air is unacceptable. Good info. Don Brown.	C31	VHS	11 min
Specific Hazards	Confined Space	Confined Space Entry II	Looks at the key job responsibilities of the attendant during a confined space procedure. Communication, monitoring, handling unauthorized people in the area and what to do if an emergency. Industrial Training, Inc.	C36	VHS	11 min
Specific Hazards	Confined Space	Confined Space Hot Work - A Checklist to Safety	Covers the special preparation and attention needed for this type of operation. Covers identifying a confined space, utilizing a work permit, preparation, testing the atmosphere and fire watch and emergency rescue. Coastal.	C34	VHS	20 min
Specific Hazards	Confined Space	Confined Space Non-entry Rescue	For self-rescue and non-entry confined space rescue training. Covers: using your head in an emergency, the importance of teamwork, how to identify and control hazards, safe work practices and equipment, signs of oxygen deficiency, communications, back up systems and more. Somewhat graphic.	C28	VHS	20 min
Specific Hazards	Confined Space	Confined Space Safety	This program starts by defining a confined space and then talks about confined space entry permits. Featured is the approach that should be taken to deal with the 2 major hazard groups... hazardous atmospheres and energy sources. Safety Care.	C42	VHS	15 min
Specific Hazards	Confined Space	Confined Space Safety II - Testing Confined Spaces	The methods used to detect invisible atmospheric hazards are shown. Covers gas detector tubes, electronic gas detectors, dangers of flammable gases and how to detect them. Revised Version Tel-A-Train.	C32	VHS	20 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Specific Hazards	Confined Space	High-Risk Rescue	Approximately 60% of all confined space fatalities are rescuers. Viewers are made aware of the hazards in a confined space, the proper equipment required to affect a rescue and the fact that only trained individuals should ever attempt a rescue. Discusses..."Underground construction & maintenance (pipeline) crews. Serious in nature, presented correctly in simple manner."	H19	VHS	5 min
Specific Hazards	Confined Space	Once Too Many: Confined Space Entry	When entering a confined space, a few basic safety procedures will assure a healthy exit. The rules of entering a confined space are outlined.	O 5	VHS	5 min
Specific Hazards	Confined Space	Permit Required Confined Spaces	Know the categories and examples of confined space, how to be aware of certain atmospheric conditions within a confined space and what OSHA requires of employees with respect to confined spaces.	P 2	VHS	5 min
Specific Hazards	Confined Space	Underground Safety: Trench Shields	The safe use of Trench Shields can be a life and death matter to a sewer or water construction worker. Highlights of several key practices for using them safely. See guidelines demonstrated on real construction sites.	U 1	VHS	12 min
Specific Hazards	Confined Space	Who's Job Is It Anyway	Confined spaces pose many hazards to entrants, as well as to would-be rescuers. It's important that all affected employees: entry supervisors, entrants, and attendants know, in advance, what is expected of them at any given time and situation.	W 7	VHS	5 min
Specific Hazards	Electrical	Basic Electricity	An examination of electric power and its uses in industry. Includes measurement (amps, volts, and watts), DC, AC, phases, magnetisms and electric motors. Majec Training.	E28	VHS	18 min
Specific Hazards	Electrical	Common Electrical Test Meters	Reviews analogs and digitals. Amer. Ed. Films.	E30	VHS	14 min
Specific Hazards	Electrical	Electrical Safety	You must be trained and authorized for electrical tasks, why electrical lock out/ tag out is so important, verifying that clearance distances, scaffolds, lift trucks, pipes, etc. can become electrical conductors.	E 9	VHS	18 min
Specific Hazards	Electrical	Electrical Safety 2000	This is an excellent training program for all employees. Discusses electrical safety, grounding of electrical equipment, power cords, extension cords, double insulation, three prong plugs, wires, and a good safety overview of electrical safety in the workplace.	E13	VHS DVD	14 min
Specific Hazards	Electrical	Electrical Safety On The Farm & Ranch	Electrical Hazards - Equipment operation & working with electrical hazards. Very basic. Done in Spanish & redubbed in English. Spanish subtitles. PG & E. <i>(also in Spanish - 039)</i>	E11	VHS	11 min
Specific Hazards	Electrical	Electrical Safety Principles	The basics of safe work with or around electricity, grounding and ground faults, circuits, circuit breakers and fuses, current flow, voltage, etc.	E27	VHS	14 min
Specific Hazards	Electrical	Electrical Safety Related Work Practices Standard	Discusses definitions of "qualified" and "non-qualified" employees and training requirements for each, lock out/ tag out requirements and overhead power-line.	E12	VHS	12 min
Specific Hazards	Electrical	Fire Protection & Electrical Safety	Supplements the legal requirements for emergency preparedness training and reinforces safety orientation training in fire protection and electrical safety. Don Brown.	F10	VHS	9 min
Specific Hazards	Electrical	Fire Protection/ Electrical Safety	Excellent for new or experienced employees. Covers fire extinguishers, sprinklers, housekeeping chemicals, cords, receptacles, and general electrical safety.	F 9	VHS DVD	9 min
Specific Hazards	Electrical	HIGH IMPACT: Electrical Safety	Electricity knows only one route: the shortest path to ground. Viewers will see what can happen to them after watching these dramatic re-creations of real life events. They will then choose safe work practices.	E10	VHS DVD	19 min
Specific Hazards	Electrical	High Voltage Electrical Safety	This program is designed specifically for persons working with 480 to 600 volts of electricity. Electrical safety tips, proper safety procedures, how to avoid electrical shock with working with high voltage and much more.	E24	VHS DVD	14 min
Specific Hazards	Electrical	Our Invisible Friend - Electricity	Reviews the basics of electrical systems and focuses on how to work with electricity safely. Covers fuses, overloaded circuits, short circuits, power tools, grounding, polarized plugs, double insulation and more. For either home or off-the-job basic electrical safety education. Marcom.	E26	VHS	17 min
Specific Hazards	Electrical	Power Line Hazard Awareness	Explains the dangers of power lines and how to recognize and avoid power line hazards while on the job.	P13	VHS	18 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Specific Hazards	Electrical	Working with Electricity: Safety on the Job	The basics of working safely with electricity and the potential hazards involving electricity are covered in this video. Covers insufficient wire and insulation, faulty breakers, overloads, power tools being used around water, and the importance of knowing what to do in case of an electrical fire. Aims.	E29	VHS	16 min
Specific Hazards	Electrical	Zap! Power Line Safety	Power lines are like snakes, silent, but deadly. We need to be aware of power lines, above and below ground. We need to know how to avoid this danger and what to do in an electrical emergency.	Z 1	VHS	5 min
Specific Hazards	Hand & Power Tools	Box Cutter Safety	Shows that no matter what type of box cutter is used, they can all lead to cuts. Explains how to cut boxes properly and prevent injuries. Don Brown.	B28	VHS	8 min
Specific Hazards	Hand & Power Tools	Chains and Safety	The dangers of chains are often ignored until someone gets hurt. Proper chain safety and maintenance are shown. Helpful hints for avoiding accidents are offered.	C24	VHS DVD	5 min
Specific Hazards	Hand & Power Tools	Chainsaw Safety	Appropriate for youth and adult saw users. Discusses safety features, need for protective equipment, and a selection of chain saws along with proper use of chain saws. The Idea Bank.	C 6	VHS DVD	14 min
Specific Hazards	Hand & Power Tools	Chainsaw: Maintenance & Safety	This follow-up program discusses the components of the chain saw (guards, engine, chain, etc.), chain selection, safe sharpening techniques, filing techniques, chain tension, operating the saw safely, personal protective gear and incorporating safety into all aspects of chainsaw use. Safety Care.	C39	VHS	15 min
Specific Hazards	Hand & Power Tools	Circular Saws	Covers types of saws, blades, cuts and techniques. Includes question/answer reviews. TPC Training.	C41	VHS	17 min
Specific Hazards	Hand & Power Tools	Compressed Air Safety	Compressed air safety is a comprehensive DVD on many different types of compressed air.	C45	DVD	11 min
Specific Hazards	Hand & Power Tools	Hand & Power Tool (Automotive Related)	Covers the most frequently used hand and power tools. Explains basic procedures for tool safety, housekeeping, and other safety procedures, designed to reduce accidents. Don Brown.	T14	VHS	12 min
Specific Hazards	Hand & Power Tools	Hand Safety	The #1 cause of hand injuries is human error. Covers pinch points, hot spots, rotating surfaces, automated machinery, jewelry/loose clothing, and hand tools. Summit/Coastal.	H49	VHS	10 min
Specific Hazards	Hand & Power Tools	HIGH IMPACT: Hand Safety	This video vividly re-creates 15 hand and finger injuries to show the viewer the effects of unsafe work practices. While the program graphically illustrates each accident, it also presents the causes and prevention measures for each one. The program will force the viewer to think about the value of his hands and how fragile they can be if neglected or left unprotected.	H 4	VHS DVD	17 min
Specific Hazards	Hand & Power Tools	HIGH IMPACT: Metal Working Safety	This video focuses on these four rules: 1) Understand the machine's operations and the potential hazards involved. 2) Acquire proper training and authorization before operating any tool or machine. 3) Always wear the correct personal protective equipment.	M19	VHS DVD	19 min
Specific Hazards	Hand & Power Tools	Knives and Box Cutters	Knives disable more people than any other hand tool. Learn how to sharpen your safety skills when using knives and box cutters.	K 1	VHS	5 min
Specific Hazards	Hand & Power Tools	Landscape Equipment Safety Vol.1: Push Mower	Covers 5 safety steps: proper equipment, knowing how to use specific machinery, preparation and maintenance, proper use of fuel and how to operate equipment properly and safely.	P22	VHS	20 min
Specific Hazards	Hand & Power Tools	Nail & Staple Guns	Hapless Hal, veteran of countless unsafe practices, shows how not to use pneumatic nail and staple guns in the humorous "Rambo" spoof.	N 1	VHS DVD	5 min
Specific Hazards	Hand & Power Tools	Pallet Jacks	Use pallet jacks to pump up our production without pumping up your number of injuries. Safety Shorts.	P 1	VHS	5 min
Specific Hazards	Hand & Power Tools	Power Hand Tools: Landscape Equip. Safety	Great general information on use of hand tools. Volume three of the landscape equipment safety series.	P12	VHS	20 min
Specific Hazards	Hand & Power Tools	Radial Arm Saws	Radial arm saws can be valuable workshop aids... if used correctly. Safety rules for setup and various operations are examined.	R 1	VHS	

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Specific Hazards	Hand & Power Tools	Safe Operation of Chain Saws	The basics safety rules of chain saws... covers preparation (inspecting, refueling, starting and holding) and operating the saw (height, grip and cutting techniques) and more. Safety Care.	C40	VHS	15 min
Specific Hazards	Hand & Power Tools	Safety and Use of Air Compressors	Shows how electric and gas compressors work, safety procedures, personal protective equipment, handling hoses and correct uses of compressors. Also gives a checklist for use of portable compressors and discusses air filters, regulators, valves, lubricating pneumatic tools and connections. Safetycare.	A16	VHS	12 min
Specific Hazards	Hand & Power Tools	Short Cut to Disaster - Part 1	When using chainsaws, safety begins by being prepared. Hapless Hal looks at proper clothing and procedures prior to using a chainsaw. Safety Shorts. <i>(also in Spanish - 020)</i>	S20	VHS	5 min
Specific Hazards	Hand & Power Tools	Short Cut to Disaster - Part 2	Chainsaws, when properly used, can be invaluable tools. Hapless Hal demonstrates safe procedures in using a chainsaw. Safety Shorts. <i>(also in Spanish - 021)</i>	S21	VHS	5 min
Specific Hazards	Hand & Power Tools	Some Mistakes Last Forever	A graphic reenactment of an actual accident. Emphasizes the importance of following safety rules with machines and equipment. The accident victim tells how his mistake cost him not only a couple of fingers and part of his hand, but also a good-paying job, his house, marriage as well as his health when he becomes an alcoholic. This true story will motivate workers. Educational Resources Inc.	M20	VHS	18 min
Specific Hazards	Hand & Power Tools	Table Saws	Table saws can be extremely dangerous. Help reduce hazards by knowing your saw, and following safe procedures for operation and use.	T 1	VHS	5 min
Specific Hazards	Hand & Power Tools	Updated - Hand and Power Tool Safety	Don Brown.	U 8	VHS	13 min
Specific Hazards	Hand & Power Tools	Using Power Tools Safety	Safe operations of hand held tools, proper working attire and electrical safety.	U 4	VHS	20 min
Specific Hazards	Hand & Power Tools	Woodworking Hand Tools	Working with wood can be very rewarding. Don't take away from that personal satisfaction by risking injury because you did not use the right tool safely. Safety Short.	W 9	VHS	5 min
Specific Hazards	Hand & Power Tools	Working Safely with Hand & Power Tools	Working with hand and power tools is a comprehensive DVD on both hand & power tool safety.	H55	DVD	10 min
Specific Hazards	Lockout/Tagout	HIGH IMPACT: Lock Out/Tag Out	This program features eight accident re-creations that demonstrate the importance of following all prescribed lockout/tagout procedures. The viewer will also learn the responsibilities and safe work procedures of those who are affected by lockout/tagout as well as those who are authorized to service machines and perform lockout/tagout procedures.	L12	VHS	19 min
Specific Hazards	Lockout/Tagout	Lockout / Tagout Hazardous Energy Sources	Procedures and reasons for using Lock Out/Tag Out are shown. Who should be authorized to do it and undo it is discussed as well as when and why it is needed. Equipment scheduled to be worked on needs to be "Locked Out" and/or "Tagged Out" so that it will not "operate" while it is being maintained or serviced to protect those performing the work. <i>(also in Spanish - 013)</i>	L11	VHS	
Specific Hazards	Lockout/Tagout	Lockout / Tagout Procedure	Intended for the persons who perform lockout/tagout procedures at your site. This program covers proper procedures for isolating energy sources when servicing or repairing equipment, verifying that zero energy state is achieved, and proper procedures for re-starting equipment. Valley Video.	L18	VHS	7 min
Specific Hazards	Lockout/Tagout	Lockout/Tagout Review	Following correct lockout/tagout procedures is vital to a safe work environment. During maintenance or repair, a piece of equipment must have its energy source isolated and disabled through proper lockout/tagout procedures. This brief, informative overview of the process will insure that everyone in your facility is aware of what to do when working on machinery. Safety Source.	L22	DVD	7 min
Specific Hazards	Lockout/Tagout	Lockout/Tagout Would Have Saved His Life	A comprehensive overview of the purpose of lockout/tagout, employee roles and responsibilities, including who is authorized to perform lockout, and the purpose and contents of an Energy Control Plan.	L23	DVD	20 min
Specific Hazards	Lockout/Tagout	Lockout/Tagout: Janitors	Meets training requirement for "affected" and "authorized" employees and can be of great benefit to those employees who work with or around any type of machine or equipment.	L21	VHS	10 min
Specific Hazards	Lockout/Tagout	Machine Lockout: Controlling Hazardous Energy	Gives an 8-step method that gives the exact procedures for locking out and controlling hazardous energy. Covers isolation of equipment, locks and tags, primary and secondary emergencies and how to safely restore the equipment to normal operation. Tel-A-Train.	L17	VHS	21 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Specific Hazards	Lockout/Tagout	OSHA's Hazardous Energy Source (Lock out/ Tag out)	This program meets the requirements for training employees in the new lockout/tagout procedures. Training for "Affected and Authorized" employees. <i>(also comes in Spanish - 035)</i>	O 7	VHS	10 min
Specific Hazards	Lockout/Tagout	Tag, You're It	Shutting down and locking out machinery prior to making repairs is an important safety procedure. Lockout/Tagout procedures are shown. <i>(also in Spanish - 023)</i>	T 2	VHS	5 min
Specific Hazards	Lockout/Tagout	Working with Machinery: Safety on the Job	Teaches safety from 2 perspectives...protecting the worker and safeguarding the machine. Covers dangers to eyes, ears, hands and lungs. Precautions for each part of the body are described. Also illustrates safety equipment and how to use it. Aims.	M21	VHS	17 min
Specific Hazards	Slips, Trips, Falls	A Custodian's guide to On-the-Job Safety	Here is a video that's focus is on preventing trip and slip hazards; how to safeguard against asbestos; power and hand tool safety; working with chemicals safely; safe lifting and ladder safety. The Idea Bank.	C23	VHS	25 min
Specific Hazards	Slips, Trips, Falls	Accident Investigation	No workplace is exempt from accidents. Know how to properly handle accidents when they occur. Video covers why accidents may occur and how to avoid similar occurrences in the future.	A11	VHS	12 min
Specific Hazards	Slips, Trips, Falls	Cleaning & Polishing Floors without Slips & Falls	Designed to improve floor surface appearance and at the same time reducing the possibility of slips and falls. These are some of the more costly accidents. This video helps train janitors/custodians on how to reduce the effects of slips and falls. Don Brown.	C11	VHS	16 min
Specific Hazards	Slips, Trips, Falls	Dancing Alone	The true story of Joe G. After 24 years of marriage, he died in an on the job fall. As family & friends describe the impact of his death, viewers realize it could be them. A good opener for a safety discussion.	D 1	VHS DVD	11 min
Specific Hazards	Slips, Trips, Falls	Fall Protection - It's No Game	Stay safe on the construction work site with this comprehensive program. Major danger zones are identified, such as open-sided platforms, leading edges, and openings in floors and walls. It also discusses conventional safety systems, including guardrails and personal fall arrest systems. Meridian Education.	F43	DVD	15 min
Specific Hazards	Slips, Trips, Falls	Falls	Falls are one of the most common accidents, yet one of the easiest to prevent. The causes of falls and the ways they can be avoided are examined. <i>(also in Spanish - 007)</i>	F 5	VHS DVD	5 min
Specific Hazards	Slips, Trips, Falls	HIGH IMPACT: Fall Protection	The program features ten accident recreations that illustrate how shortcuts and other common safety mistakes can lead to serious injury and death.	F 3	VHS	19 min
Specific Hazards	Slips, Trips, Falls	How to Prevent Slips and Falls	98% of slips and falls can be prevented! Eliminate workplace hazards before costly injuries occur. Outside and entry way; housekeeping, mats, polishing, waxing and mopping safely, stair and ladder safety, and training. Don't take walking for granted!	H25	VHS DVD	12 min
Specific Hazards	Slips, Trips, Falls	If icouldawouldashoulda	How does it feel if you gamble with safety and you lose? As Harvey falls to his fate, he looks at what he could have, should have and would have done to avoid his fall.	I 2	VHS DVD	5 min
Specific Hazards	Slips, Trips, Falls	Ladder Safety	A video on the importance of ladder safety in the workplace. Workers learn the basic rules of ladder safety, how to place the ladder correctly, maintaining the ladder, the "Buddy System", overheads and more.	L20	VHS	15 min
Specific Hazards	Slips, Trips, Falls	Preventing Trips & Slip Injuries	Covers slip and trip hazards, both inside and outside.	P20	VHS DVD	5 min
Specific Hazards	Slips, Trips, Falls	Safetyman Chapter 1: Slips & Falls	13 1/2 million people are injured in falls each year and over 14,000 die as a result. Safety tips are offered to help prevent fall accidents.	S15	VHS	5 min
Specific Hazards	Slips, Trips, Falls	Slips and Falls: Office, Retail, Public	Falls are the second most common cause of on the job injuries, second only to back strains. This refreshing video follows the world's most accident prone travel expert around the world as we learn about trips to the great indoors.	S27	VHS	5 min
Specific Hazards	Slips, Trips, Falls	Slips, Trips and Falls	Slips, trips, and falls are a leading cause of injury and death on the job. In this program, insurance case histories expose the real cause of the majority of accidental falls: carelessness. Correcting or reporting potential hazards is covered.	S28	VHS DVD	17 min
Specific Hazards	Slips, Trips, Falls	Step-by-Step Avoiding Slips, Trips and Falls	Covers the most frequent causes of slips and falls, the importance of traction, shoes, ladders, good lighting, stairways, the importance of good housekeeping, taking your time, and paying attention to where you are going. Coastal.	S52	VHS	17 min
Specific Hazards	Welding	A Matter of Degree: Part I	A welding torch can be one of the most dangerous tools on any job site. The proper precautions to take when using a welding torch are outlined. Safety Shorts.	M 8	VHS	5 min

Category	Sub Category	Video Title	Video Description	Video Ref. #	Format	Length of Video
Specific Hazards	Welding	A Matter of Degree: Part II	Welding torch safety is an all-consuming process. Proper procedures for the safe assembly, operation and storage of the welding torch heads are outlined. Safety Shorts.	M 9	VHS	5 min
Specific Hazards	Welding	Flash burn	Flash burn to the eye can result when an ultraviolet ray is emitted by an arc welder are absorbed into the eye's cornea. Viewers are shown the damaging effects of flash burn and prevention methods.	F15	VHS	5 min
Specific Hazards	Welding	Gas Cylinders: Welding, Cutting & Brazing	Gas cylinders used in welding, cutting and brazing operations contain potentially dangerous gases under high pressure. Certain actions, such as rough handling, exposure to electrical circuits or heat sources, and improper storage can lead to serious accidents. This Video helps you make sure you're familiar with the potential dangers, and take precautions when handling, using, and storing fuel-gas cylinders. Safety Shorts.	G 1	VHS	5 min
Specific Hazards	Welding	Gas Cylinders-Overview	When mishandled, compressed gas cylinders can pose serious hazards. Always take precautions when handling, using, and storing. Safety Shorts.	G 2	VHS	5 min
Specific Hazards	Welding	Safety Factors in Arc Welding Operations	For all persons operating arc welding machines and equipment. Covers safe rules, operating procedures and improves the awareness of each person's individual responsibility when operating this equipment. Strongly supports fire prevention. Don Brown.	W24	VHS	11 min
Specific Hazards	Welding	Super Welder: Safe Welding & Cutting	Basic safety welding procedures, proper working attire and accessories.	S38	VHS	18 min
Specific Hazards	Welding	Welding and Cutting Safety I	Welding and cutting work is inherently hazardous. High heat. Sources of ignition. You need to know how to practice your craft without getting burned. <i>(also in Spanish - 026)</i>	W 4	VHS	5 min
Specific Hazards	Welding	Welding and Cutting Safety II	Welding and cutting work use intense heat to reshape our world. But the same power that creates can destroy. Find out how to control that power...and your own fate. <i>(also in Spanish - 027)</i>	W 5	VHS	5 min
