By the time professional help arrives, it may be too late.

When an emergency happens, you may be the first line of defense. How you use the precious minutes before help arrives can mean the difference between life and death. Are you ready? Be prepared with OSHA compliant first aid training.

Upon successful completion of the course, participants will receive nationally recognized First Aid and CPR course completion cards.

Safety Center Incorporated uses Emergency Care and Safety Institute (ECSI) training materials. Two of the most respected names in injury, illness and emergency care - American Academy of Orthopaedic Surgeons (AAOS) and American College of Emergency Physicians (ACEP) - have approved the content of these materials. Participants will learn how to recognize a life-threatening emergency and how to provide basic life support, as well as how to recognize the signs and symptoms of injuries and sudden illness, including airway obstruction, shock, burns, strains, strokes and seizures.
