Safety Center Incorporated, a private not-for-profit organization, offers all of our safety training classes at either your place of business or at our facilities, in both southern and northern California. Program content and learning activities can be customized to include policies, procedures, and forms specific to your company or facility. We teach a wide variety of safety education courses with engaging visual aids and hands on practices that will enhance your learning experience. We also provide safety evaluations of your facility and can recommend the best safety training to meet your company's particular needs.
